

STATISTICAL YEAR BOOK 2015

**DIRECTORATE OF ECONOMICS AND STATISTICS
GOVERNMENT OF TELANGANA
HYDERABAD**

Dr. V. Subramanyam
Director

**Directorate of Economics and
Statistics, Hyderabad**

Foreword

In a scenario where the publication and dissemination of statistics is decentralized, both vertically and laterally, there is a demand for availability of data from diverse fields, at one place. Directorate of Economics and Statistics, being the nodal agency at the state level has taken steps to cater to such requirement. As a result, the publication “Statistical Year Book 2015” provides both time series and cross sectional data covering various sectors.

The present publication is 2nd in series after the formation of Telangana state includes data for recent years along with All-India comparisons. Sources of data have also been indicated for further references by users of data.

For effective planning, there is a need for a comprehensive database in one place. This publication will serve to some extent to this endeavor.

I take this opportunity to thank all the source agencies, departments for their “co-operation in supplying the data for the publication. I place on record my appreciation to officers and staff of Directorate of Economics and Statistics associated with the compliant of the year book”.

I would be glad to receive suggestions regarding improvement of this publication.

Hyderabad

MINISTRY OF LAW AND JUSTICE
(Legislative Department)

New Delhi, the 18th July, 2014/Asadha 27, 1936 (Saka)

The following Act of Parliament received the assent of the President on the 17th July, 2014, and is hereby published for general information.

THE ANDHRA PRADESH REORGANISATION
(AMENDMENT) ACT, 2014

No. 19 of 2014

[17th July, 2014.]

AN ACT to amend the Andhra Pradesh Reorganisation Act, 2014.

Enacted by Parliament in the Sixty-fifth Year of the Republic of India as follows:—

1. (1) This Act may be called the Andhra Pradesh Reorganisation (Amendment) Act, 2014.

Short title
and
commencement.

(2) It shall be deemed to have come into force on the 29th day of May, 2014.

6 of 2014.

2. In the Andhra Pradesh Reorganisation Act, 2014, in section 3, for the words, brackets, letters and figures "Khammam (but excluding the revenue villages in the Mandals specified in G.O.Ms.No. 111 Irrigation & CAD (LA IV R&R-I) Department, dated the 27th June, 2005 and the revenue villages of Bhurgampadu, Seetharamanagaram and Kondreka in

Amendment
of section 3.

Bhurgumpadu Mandal)”, the words and brackets “Khammam (but excluding the Mandals of Kukunoor, Velairpadu and Bhurgampadu but not including its revenue villages of Pinapaka, Morampalli Bazar, Bhurgampad, Nagineniprolu, Krishnasagar, Tekula, Sarapaka, Iravendi, Mothepatinagar, Uppusaka, Sompalli and Nakripeta under the Palvancha Revenue Division, and the Mandals of Chintoor, Kunavaram, Vararamachandrapuram and Bhadrachalam but not including the revenue village of Bhadrachalam under the Bhadrachalam Revenue Division)” shall be substituted.

Repeal and
saving.

3. (1) The Andhra Pradesh Reorganisation (Amendment) Ordinance, 2014 is hereby repealed.

Ord. 4 of
2014.

(2) Notwithstanding such repeal, anything done or any action taken under the Andhra Pradesh Reorganisation Act, 2014, as amended by the said Ordinance, shall be deemed to have been done or taken under the provisions of that Act, as amended by this Act.

6 of 2014.

P. K. MALHOTRA,
Secy. to the Govt. of India

Overview

The state of Telangana emerged as 29th state in the Indian Union as per the Andhra Pradesh Reorganization Act, 2014 (No. 6 of 2014) of Parliament, which received the assent of the President of India on the 1st March, 2014 and came into existence with effect from 2nd June, 2014. The said Andhra Pradesh Reorganization Act, 2014 was received an amendment called the Andhra Pradesh Reorganization (Amendment) Act, 2014 (No. 19 of 2014) on the 17th July, 2014, transferring certain mandals and villages (327) of Khammam district to residual Andhra Pradesh, enforcing this amendment with effect from 29th May, 2014.

Telangana is a state in the Southern region of India. It has an area of 1,12,077 sq. kms., after the Andhra Pradesh Reorganization (amendment) Act, 2014 (as per Act No. 6 of 2014 it was 1,14,840 kms.), and is the twelfth largest state in terms of both area and the size of the population in the country. Most of it was part of

The Government of India, in exercise of powers conferred under the provisions of the Census Act, 1948, conducting the population census across the country once in a decade and releasing the results in different phases. Accordingly, the Government of India has conducted the population census in the year

the princely state of Hyderabad, ruled by Nizam of Hyderabad during the British Raj, joining the Union of India in 1948. In 1956, the Hyderabad state was dissolved as part of the linguistic reorganization of states, and the Telugu speaking part of Hyderabad state, known as Telangana, was merged with former Andhra State to form Andhra Pradesh. On 2nd June 2014, Telangana was separated from Andhra Pradesh as a new 29th state of India, with the city of Hyderabad as its capital.

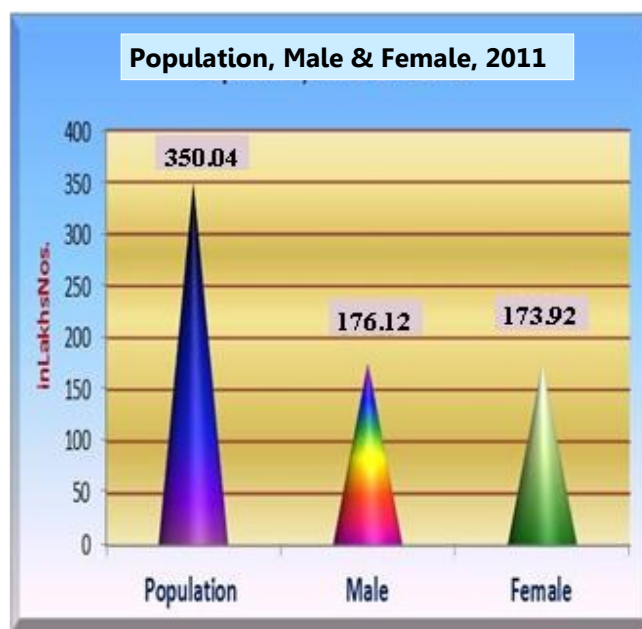

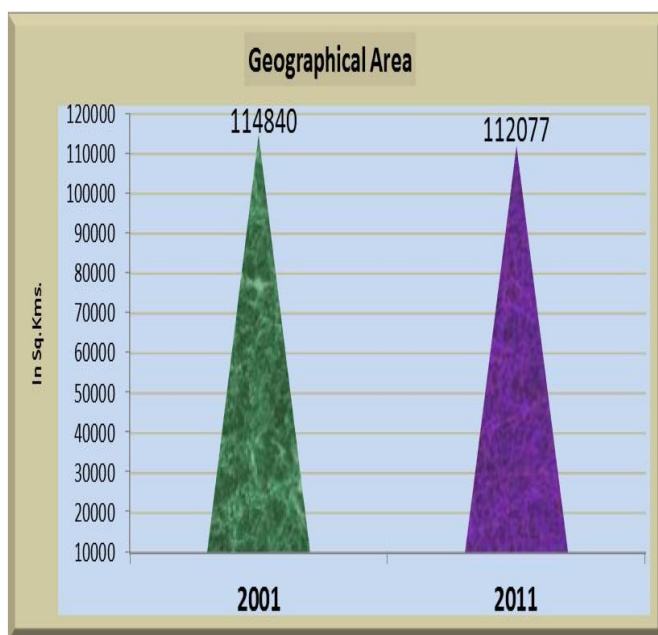

The state is bordered by the states of Maharashtra, Chattisgarh to the North, Karnataka to the west, and Andhra Pradesh to the south, east and north east. The major cities in Telangana state include Hyderabad, Warangal, Mahabubnagar, Karimnagar, Nizamabad, and Khammam. The State is strategically located in the Deccan plateau in a semi arid region. The climate is predominantly hot and dry.

1. Population

2011 and released the final results, up to the village level, in different classifications. An attempt is made in this chapter to present the results of the population census, 2011 conducted in Telangana State, excluding (327) revenue villages that were transferred to the state of Andhra Pradesh as per the

Andhra Pradesh Reorganization (Amendment) Act, 2014 (No. 19 of 2014) along with certain comparisons with that of the earlier censuses. Accordingly, the geographical area of the Telangana State is 1,12,077 Sq. Kms. and population is 350.04 lakhs consisting of

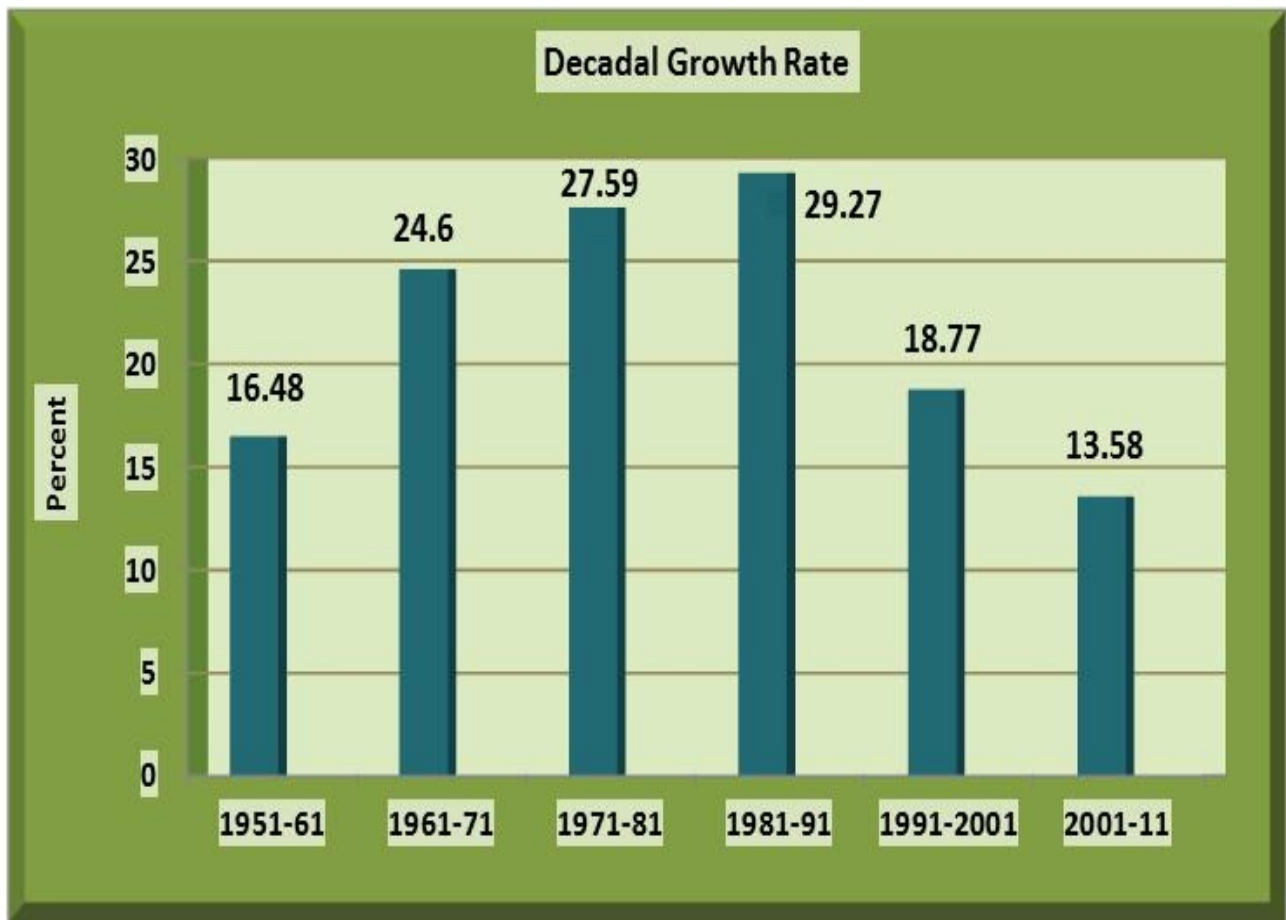

176.12 Lakh males and 173.92 Lakh females, is the twelfth largest state in terms of both area and size of population in union of India. The sex ratio is being 988 in the state. The details of geographical area and population with males and females are shown in the following graph.

Growth of Population

The people of the state are predominantly residing in rural areas with 61.12% and the rest of 38.88% are residing in urban areas. The overall growth of total population during the decade 2001 to 2011 is 13.58%, whereas it was 18.77% in the preceding decade. The growth of the population in urban areas has been witnessing a significant increase. Urban population in the State grew by 38.12% during the decade 2001 to 2011 as compared with

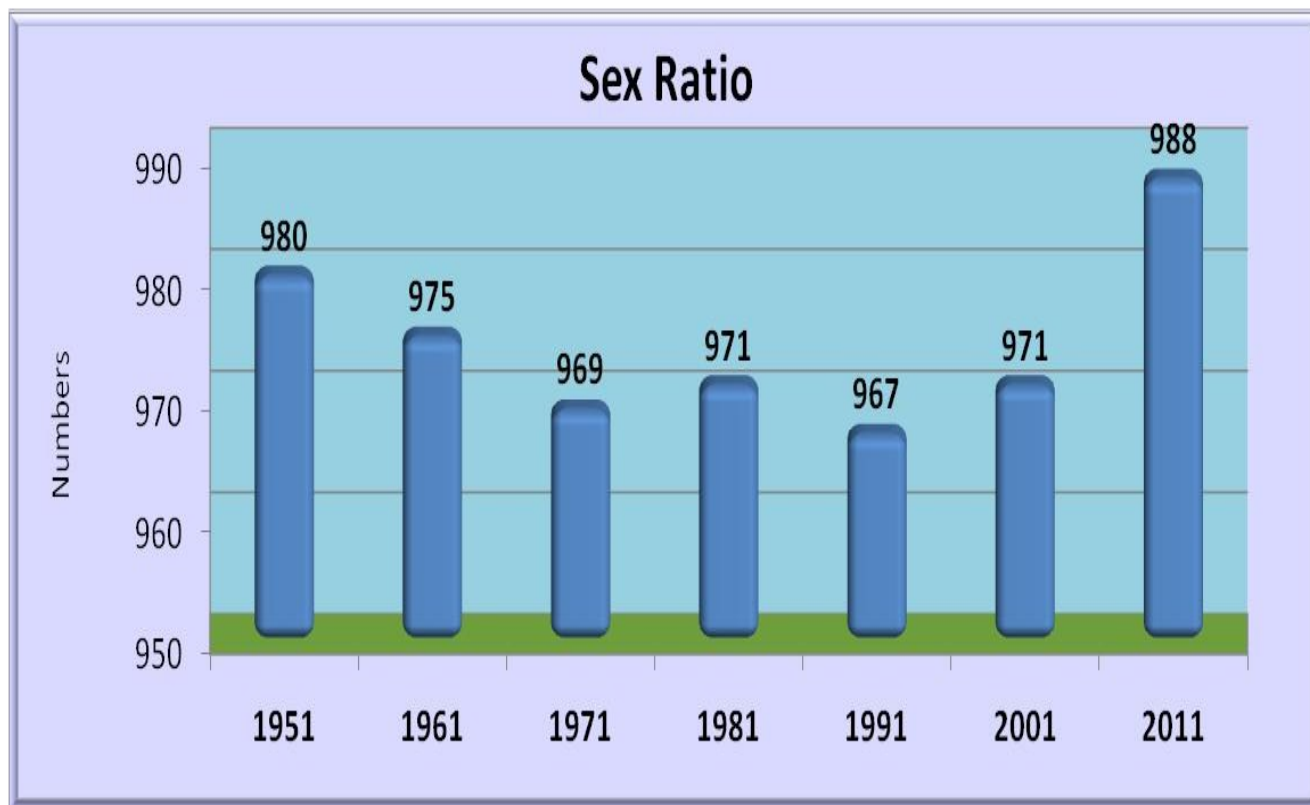

25.13% in the preceding decade. In sharp contrast, rural population in the state grew by a modest 2.13% as per the 2011 census, which is much higher than the United Nations estimates of world population growth at 1.23%. Around 30% of total urban population is residing in the capital city of Hyderabad alone. A graph on decadal growth rates from 1951-61 to 2001-11 is depicted below.

Sex Ratio of Population

The sex ratio is defined as the number of females per 1,000 males. This ratio for the state is 988 according to 2011 Census. One distinguishing feature is that the sex ratio in the districts of Nizamabad, Adilabad, Karimnagar and Khammam is over 1,000. The sex ratio has been witnessing an improvement in the State from 967 in 1991 to 971 in 2001 and further to 988 in 2011. Despite a favorable sex ratio of the total population, the sex ratio of children in the age group of 0-6 years is declined from 957

in 2001 to 932 in 2011. The sex ratio of the SC population at 1,008 in 2011 is much higher than the State average of 988 in all districts, except Rangareddy, Hyderabad and Mahabubnagar districts. The sex ratio of ST population at 977 is marginally lower than the State average of 988, but it is higher in Adilabad, Karimnagar, Nizamabad and Khammam districts. The pictorial presentation of Sex Ratio of population, including children is given in the following graphs.

Density of Population

The density of population is defined, in general, as average number of persons residing per square kilometer of area. The density of population in the State ranges from 170 to 18,172 per square kilometer. Adilabad district has the lowest density of 170 per sq. kilometer

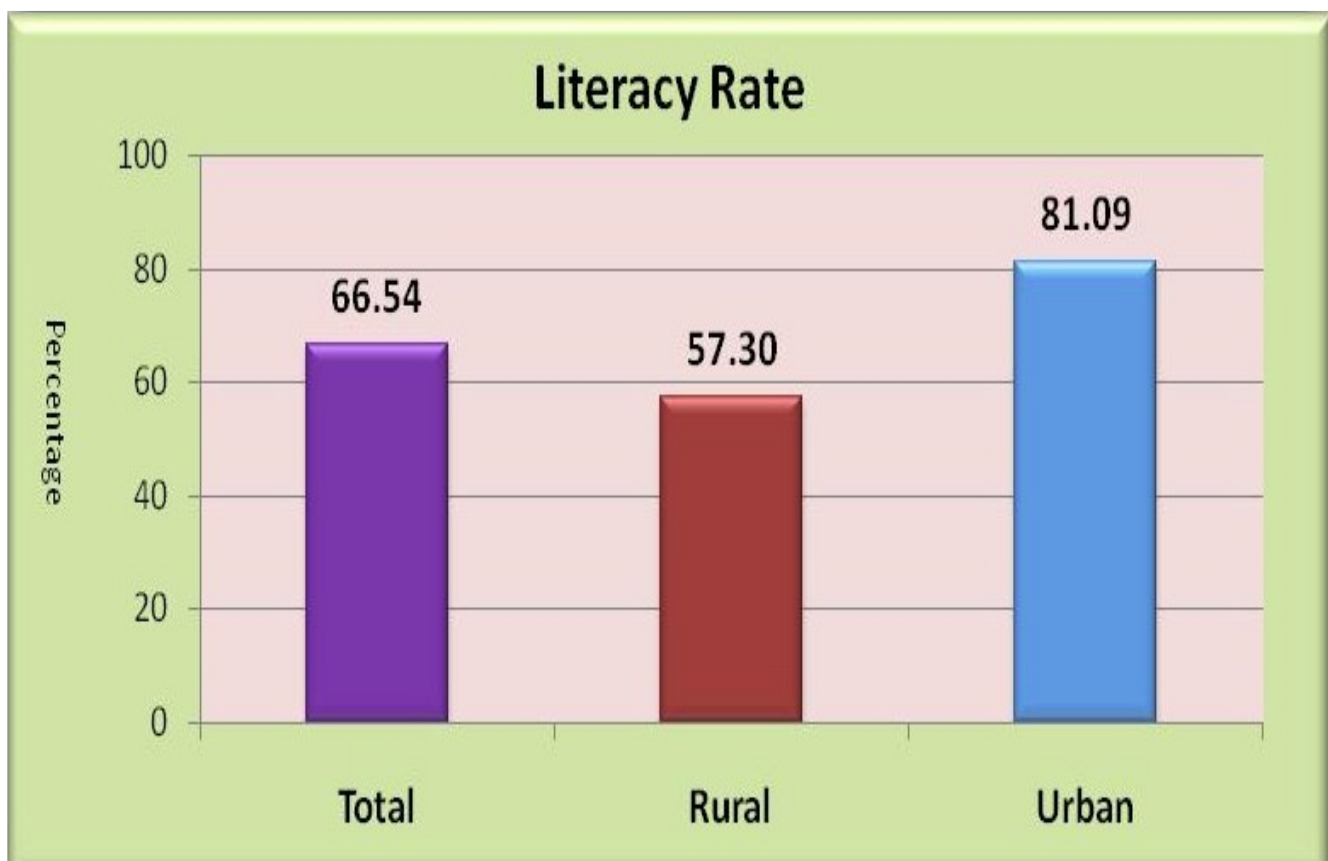

and Hyderabad district with highest density of 18,172 per sq. kilometer. The districts of Adilabad, Khammam and Mahabubnagar have lower density of population with 170, 197 and 220 per sq. kilometer respectively, as compared with the State average of 312 per sq. kilometer.

Literacy Rate

According to the Census of India, the literacy rate is defined as the total percentage of the population of an area at a particular time, aged seven years or above who can read and write with understanding.

The literacy rate of the State as per 2011 census is 66.54%. Male literacy and female literacy are 75.04% and 57.99%, respectively. Hyderabad district is highest with 83.25% and Mahabubnagar district at lowest with 55.04%, the same is depicted in the following graph.

The literacy rate of the State as per 2011

Social Composition of Population

The population of the State consists predominantly of backward classes scheduled castes and scheduled tribes. Out of the total population of the State, scheduled castes constitute 15.45% and the scheduled tribes 9.08%. There has been a significant increase in

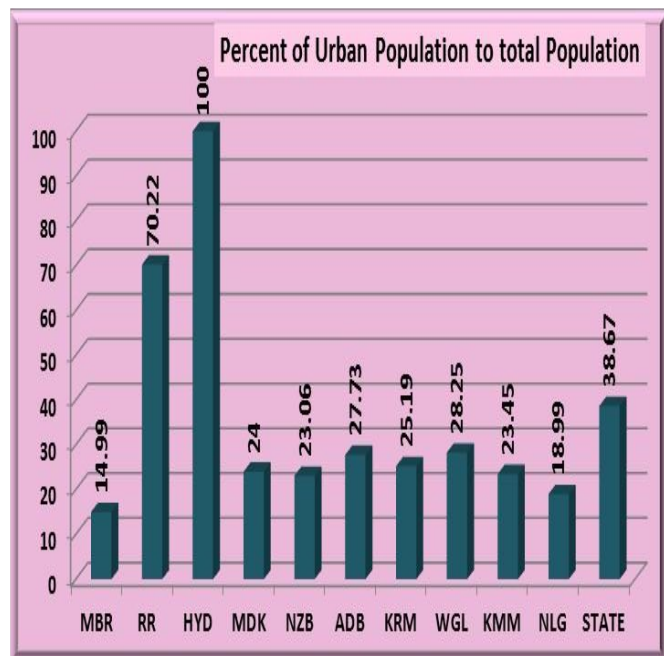

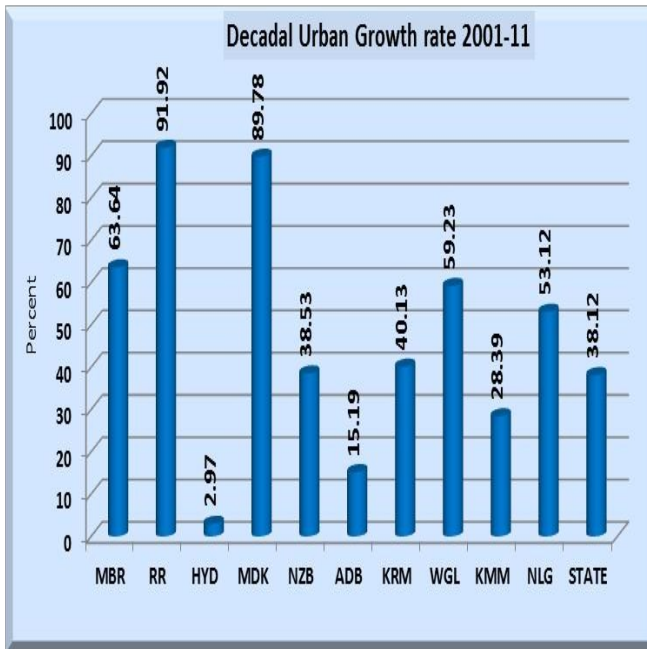

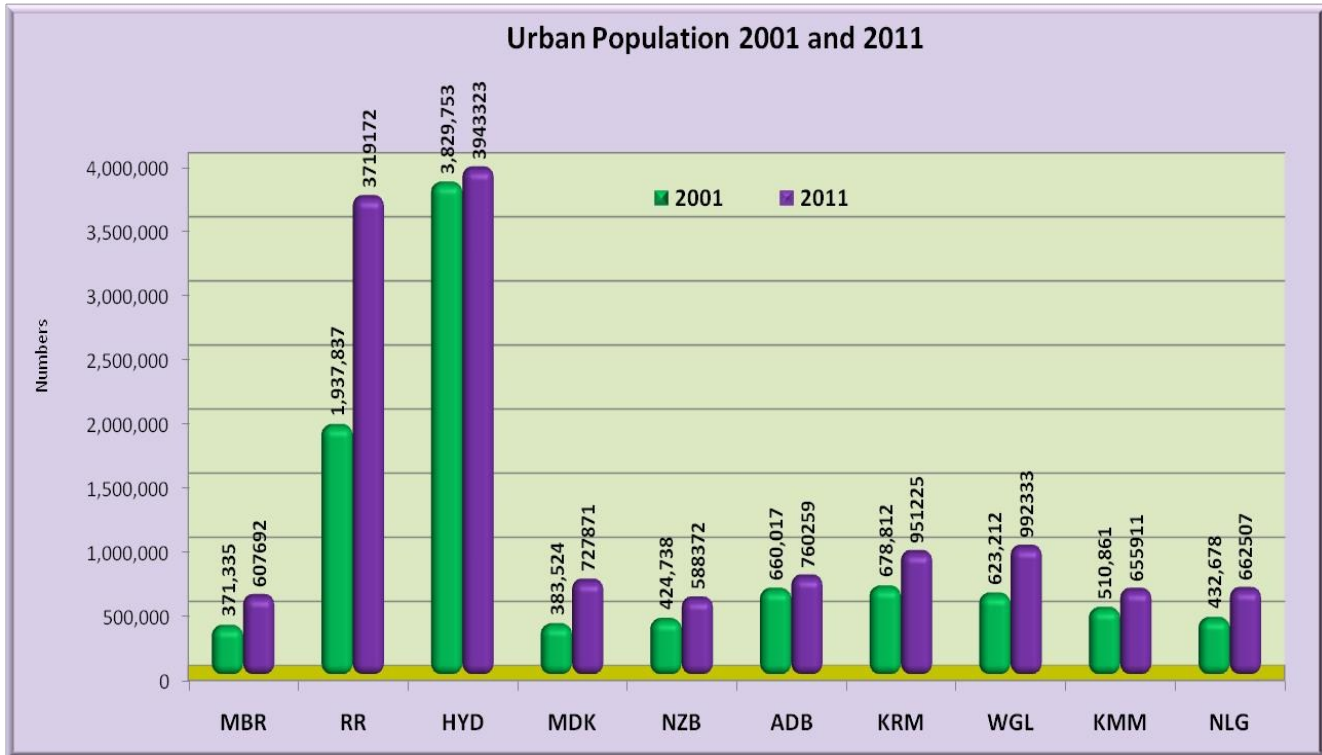

the percentage of tribal population in total population from 2.81% in 1961 to 8.19% in 1981 and further to 9.08% in 2011. Details regarding percentage of SCs, STs and Other population are presented below.

Growth and Level of Urbanization

Urban population, according to 2011 census, is 136.09 lakhs, whereas it was 98.53 lakhs in 2001, increased by 36% over the decade in the State. Hyderabad is a hundred percent urban district but the city of Hyderabad spreads much beyond the district boundary into the

neighbouring Rangareddy district. This has made Rangareddy, which surrounds Hyderabad, as the next highly urbanized district with 70.22% urban population. District wise details are shown in the following graphs.

Apart from the data so presented, an attempt is made in this chapter to present data

on other parameters relating to the population and related matters in different tables.

Table	Content
1.1	Demographic and other key characteristics
1.2	Variation in Population from 1901 to 2011 Census
1.3	Geographical Area, Revenue Divisions, Municipal Bodies, Gram Panchayats, 2015
1.4	Male and Female Population and Sex Ratio, 2011 Census
1.5	Population by Area, Gender and Sex Ratio, 2011 Census
1.6	Percentage of Decadal Growth in Rural and Urban, 2011 Census
1.7	Rural and Urban Child Population (0-6 years) and Sex Ratio, 2011 Census
1.8	Rural and Urban Literate Population and Literacy Rate, 2011 Census
1.9	Percentage of Decadal Variation in Population, 1901 to 2011 Census
1.10	Sex Ratio, 1951 to 2011 Census
1.11	Census Houses and the uses to which they are put, 2011 Census
1.12	Rural and Urban Households and Average Household Size, 2011 Census
1.13	Houseless Population and Households, 2011 Census
1.14	Villages Classified according to Size of Population, Inhabited and Un-inhabited, 2011 Census
1.15	Distribution of Population by Age Groups, 2011 Census
1.16	Distribution of Total Population by Main Workers, Marginal Workers, Total Workers, 2011 Census
1.17	Category wise Distribution of Main Workers, 2011 Census
1.18	Category wise Distribution of Marginal Workers, 2011 Census
1.19	Category wise Distribution of Total Workers, 2011 Census
1.20	Scheduled Castes Population by Districts, Area and Gender, 2011 Census

Table	Content
1.21	Scheduled Castes Child Population (0-6 years) and Sex Ratio, 2011 Census
1.22	Scheduled Castes Literate Population, 2011 Census
1.23	Scheduled Tribes Population by Districts, Area and Gender, 2011 Census
1.24	Scheduled Tribes Child Population (0-6 years) and Sex Ratio, 2011 Census
1.25	Scheduled Tribes Literate Population, 2011 Census
1.26	Distribution of Scheduled Castes Population by Main Workers, Marginal Workers and Total Workers, 2011 Census
1.27	Category wise Distribution of Scheduled Castes Main Workers, 2011 Census
1.28	Category wise Distribution of Scheduled Castes Marginal Workers, 2011 Census
1.29	Category wise Distribution of Scheduled Castes Total Workers, 2011 Census
1.30	Distribution of Scheduled Tribes Population by Main Workers, Marginal Workers and Total Workers, 2011 Census
1.31	Category wise Distribution of Scheduled Tribes Main Workers, 2011 Census
1.32	Category wise Distribution of Scheduled Tribes Marginal Workers, 2011 Census
1.33	Category wise Distribution of Scheduled Tribes Total Workers, 2011 Census
1.34	Statutory Towns along with their Out Growths showing Households and Total Population, 2011 Census
1.35	Statutory Towns along with their Out Growths showing Scheduled Castes Population, 2011 Census
1.36	Statutory Towns along with their Out Growths showing Scheduled Tribes Population, 2011 Census
1.37	Statutory Towns with their Out Growths showing Slum Population, 2011 Census
1.38	Disabled Population by Sex and Residence, 2011 Census
1.39	Religion wise Population, 2001 Census
1.40	Graduates and above as per 1991 and 2001 Census
1.41	Ranking of Districts by Population Size, 2001 and 2011 Census
1.42	Ranking of Districts by Sex Ratio, Density of Population and Literacy Rate, 2001 and 2011 Census
1.43	Details of Revenue Villages transferred to Residual Andhra Pradesh and retained in newly formed Telangana State

2. Health and Family Welfare

The right to health is the economic, social and cultural right to the highest attainable standard of health. It is well recognized in the Universal Declaration of Human Rights, International Covenant on Economic, Social and Cultural Rights and the Convention on the Rights of Persons with Disabilities.

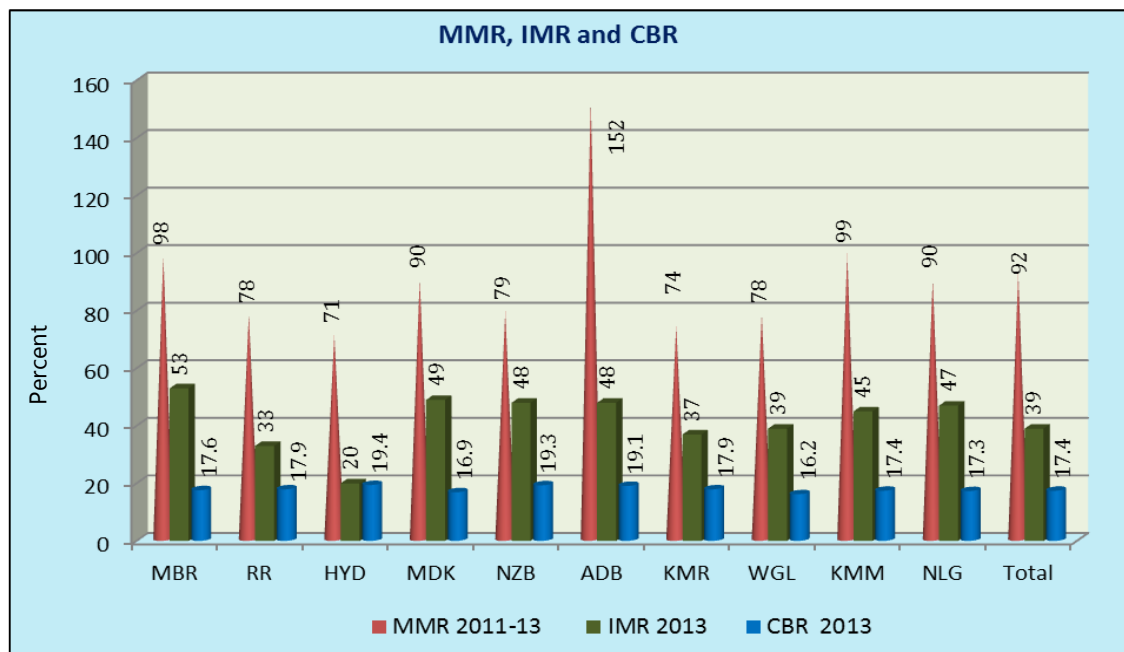

In accomplishing this, the Government of India has launched the National Health Mission (NHM) encompasses its two Sub-Missions, the National Rural Health Mission (NRHM) and the newly launched National Urban Health Mission

(NUHM). The main programmatic components include Health System Strengthening in rural and urban areas Reproductive-Maternal Neonatal Child and Adolescent Health (RMNCH+A), and Communicable and Non-Communicable Diseases. The NHM envisages achievement of universal access to equitable, affordable and quality health care services that are accountable and responsive to peoples need. Many demographic and health indicators have been prescribed to monitor the performance in a given area like district, state etc .

Health Indicators

The availability of health care services is found to be inadequate both quantitatively and qualitatively. Considering the fact the Government has introduced various health schemes and programmes for providing basic health facilities to all citizen. In six out of ten districts of the State, the infant mortality rate (IMR) is found to be much higher than the national average of 40. The maternal mortality

rate (MMR) at 152 is very high in Adilabad district, whereas the national average is 167. The percentage of home deliveries at 11.5% as per District Level Household Survey (2012-13) conducted by the International Institute for Population Sciences, is found to be very high in the backward district of Adilabad. District wise selected health indicators are presented below.

Health and Family Welfare

There are 86 general hospitals, 26 hospitals for special treatment and 94 allied hospitals, totaling to 206 hospitals, 613 primary health centers and 75 dispensaries are existing in the state as on 31-03-2013. The strength of doctors

in these hospitals is 4713, including 894 contract doctors to provide maternal health care, child health care and family welfare services to the people of the State .

3. Climate

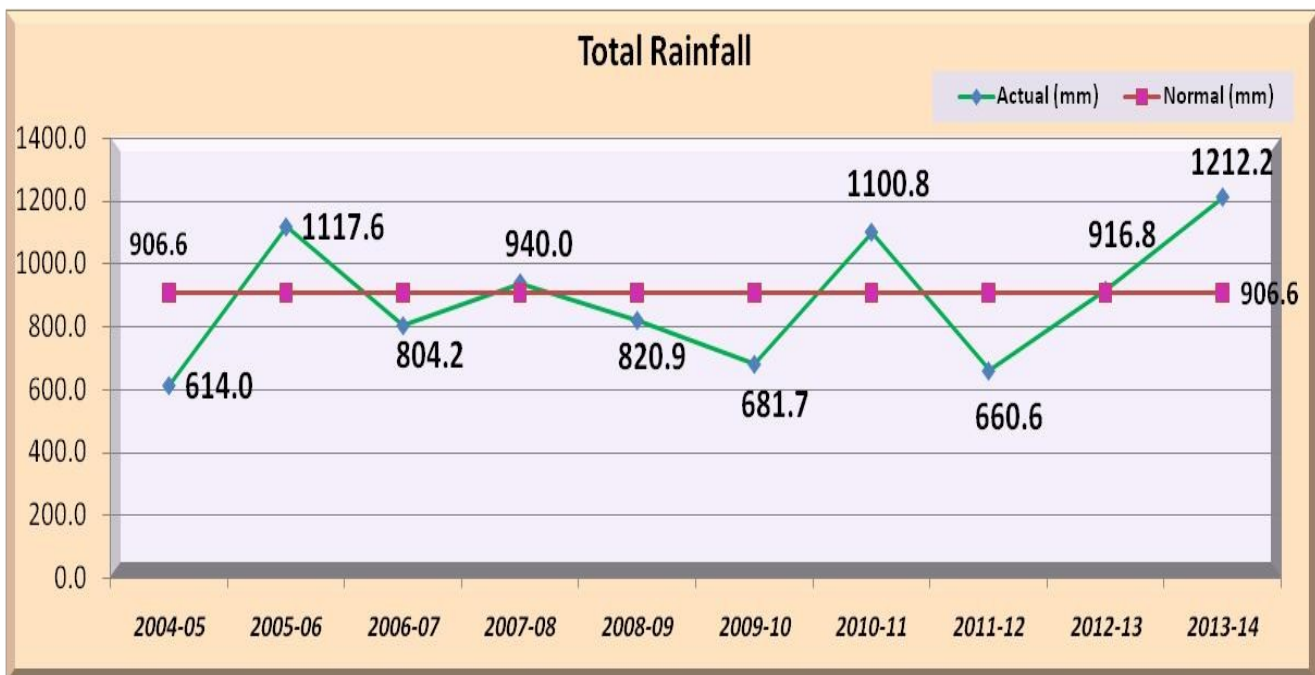

Telangana state is geographically located in a semi-arid area and has a predominantly hot and dry climate. Summers start in March, and peak in May with average high temperatures in the 42 °C (108 °F) range. The monsoons enter in the state in June and lasts until September with

about 715 mm of precipitation. A dry, mild winter starts in late November and lasts until early February with little humidity and average temperatures in the 22–23 °C (72–73 °F) range. This area is also prone to hailstorms in the month of April and May, some times

Rainfall

The average annual rainfall in the state is about 906.6 mm and 80% of annual rainfall is received from the south-west monsoons (June-September). The rainfall in the state is erratic and uncertain and distribution of the rainfall is uneven in various mandals, thus, making agriculture a proverbial gamble in monsoons. Of the rainfall received during the

period from 2004-05 to 2013-14, the annual actual rainfall received was lowest in 2004-05 with 614 mm, where as it was the highest in 2013-14 with 1212.2 mm as against normal rainfall of 906.6 mm in the state. Year wise details of Actual and Normal rainfall are depicted in the following graph.

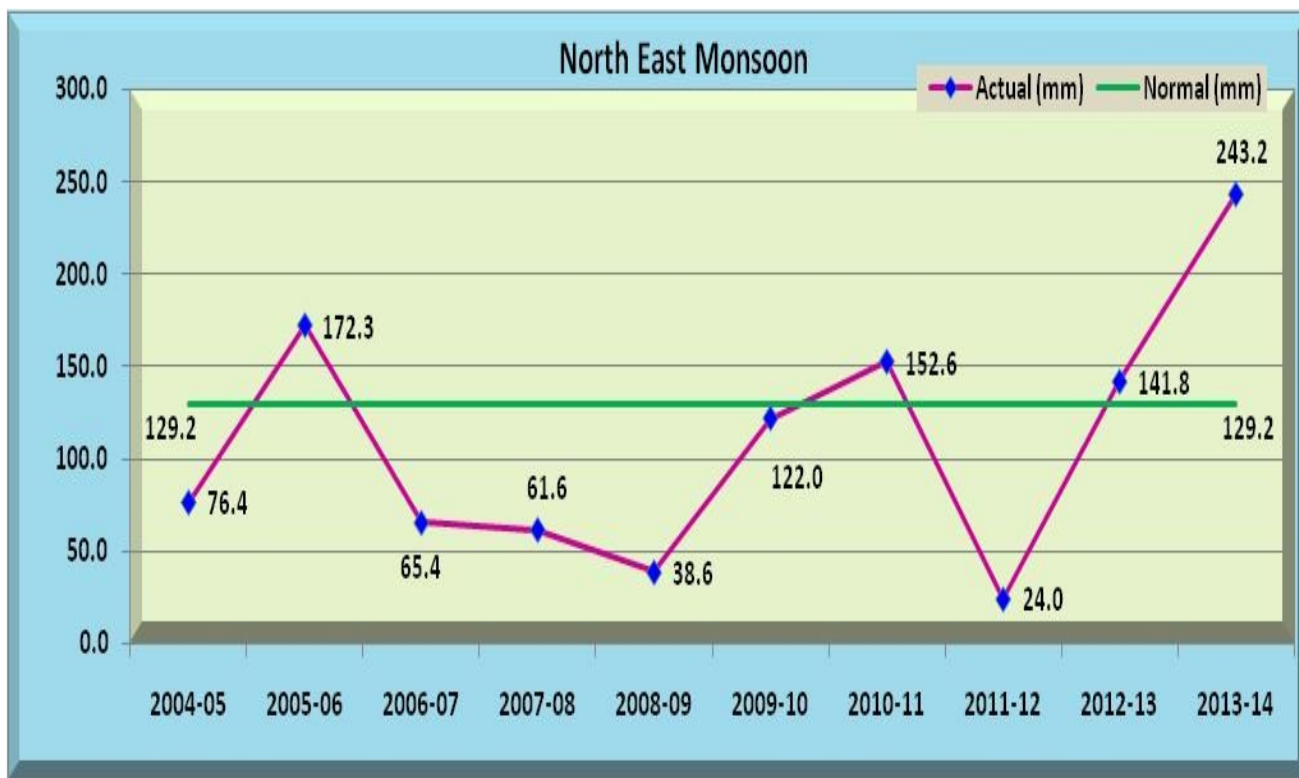

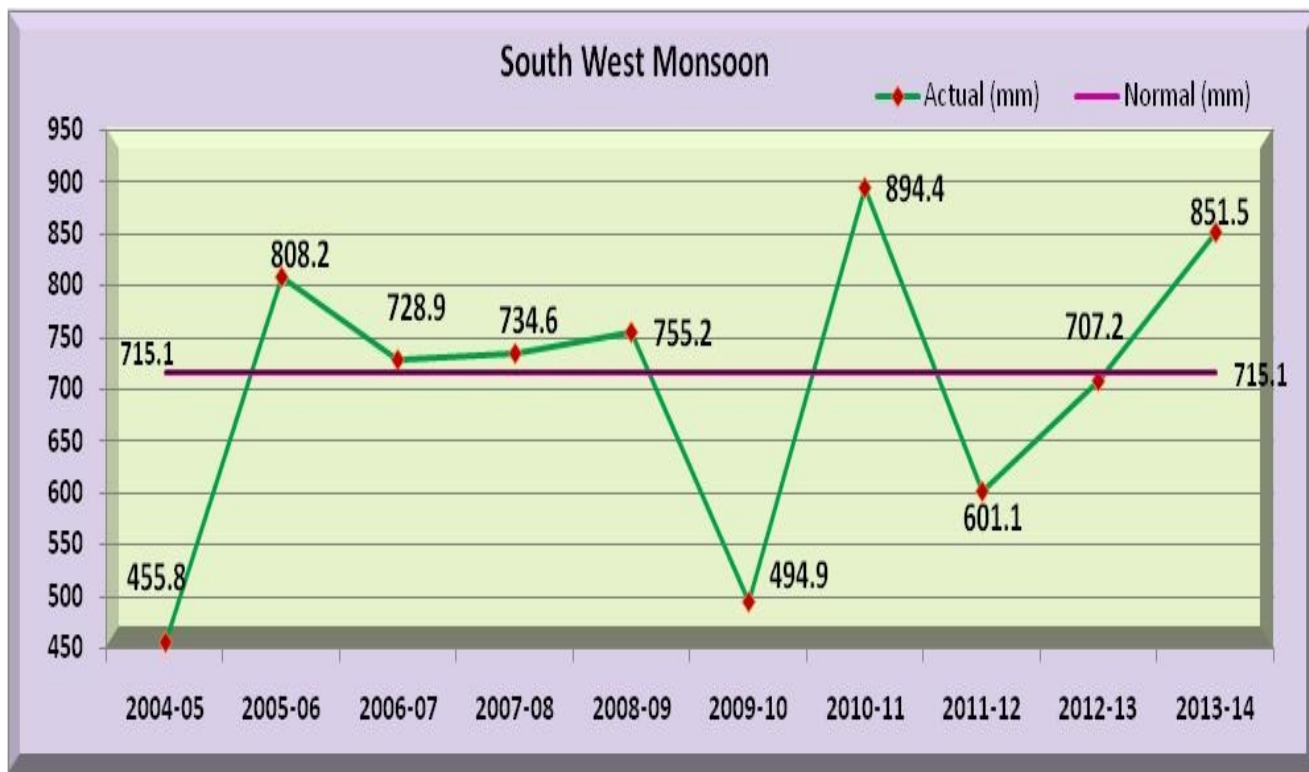

Table	Content
3.1	Season wise Rainfall, 2004-05 to 2013-14

4. Agriculture

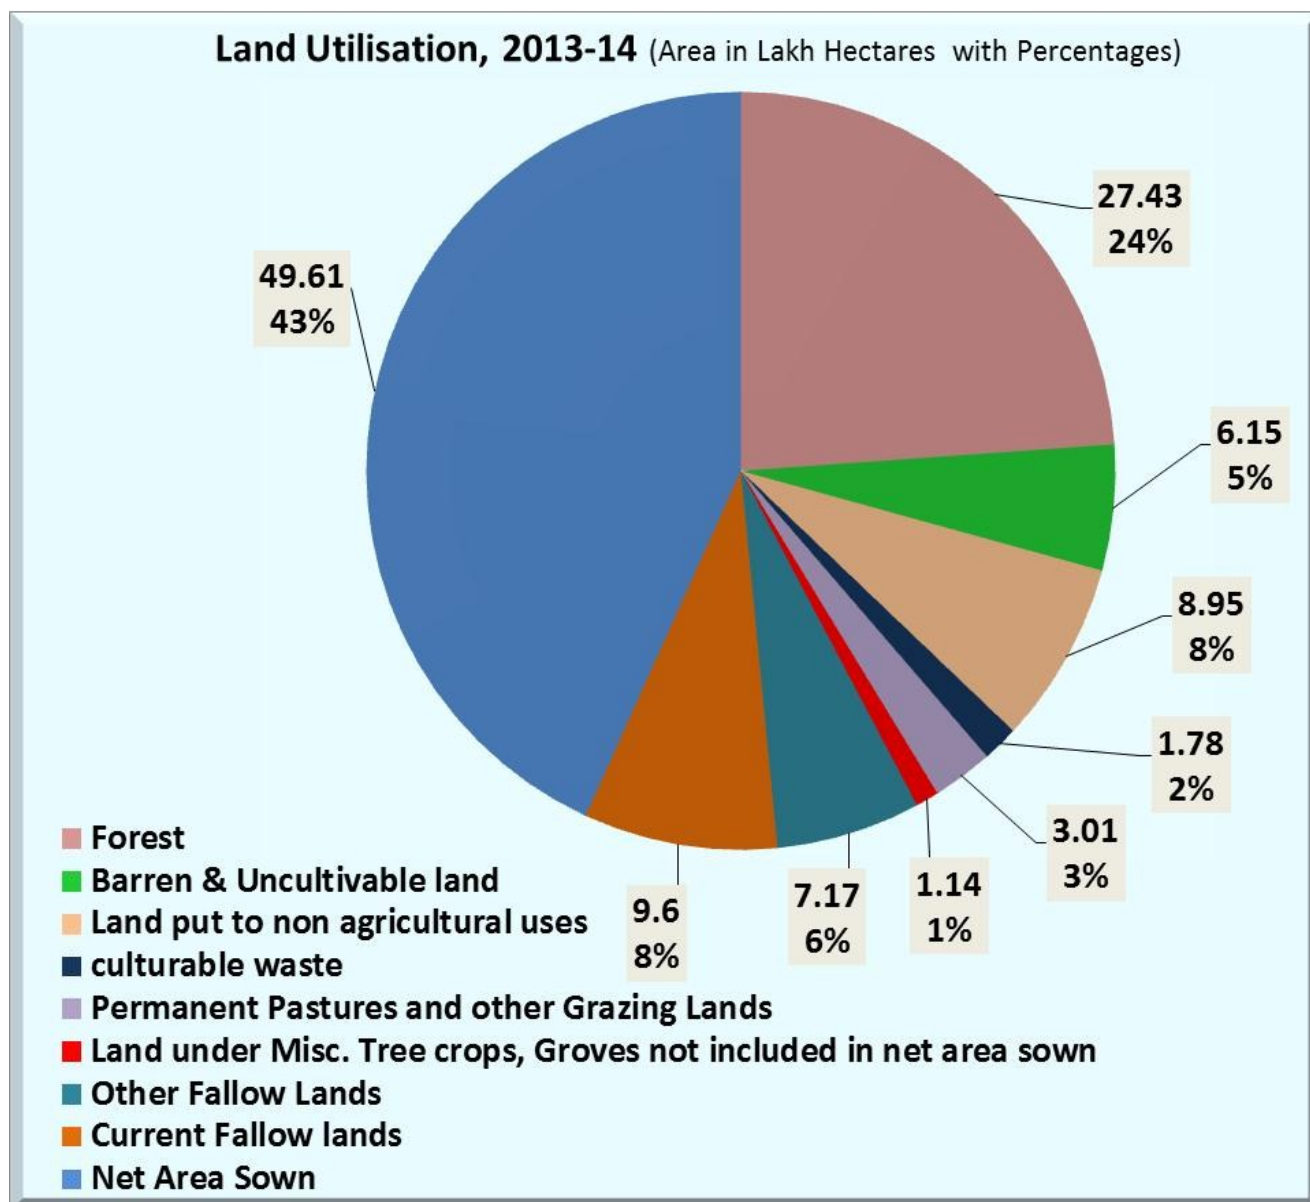

The Economy of Telangana is mainly driven by agriculture. Agriculture plays a pivotal role in the economy of the state and the better performance of this sector is vital for inclusive growth. Sustainable growth in Agriculture continues to be core agenda of the Government and occupies center stage in state economy embodying three thrust areas viz., (i) to promote inclusive growth, (ii) to enhance rural income, and (iii) to sustain food security. About 55.49 percent of the State's population is dependent on some form or the other on farm activity for livelihoods, it is imperative to increase the farm incomes and ensuring sustainable growth in Telangana to reduce poverty. The share of agriculture to state GSDP in 2014-15 is 9.3 percent at current prices. The pressure on agricultural land is ever increasing for industrialization, urbanization, housing,

infrastructure and others. All these factors are forcing for conversion of agricultural land to non-agricultural uses. The scope for expansion of the area available for cultivation is coming down to that extent, ultimately decrease in net area sown. Paddy is the major food crop and staple food of the state. Other important crops grown are Maize, Jowar, Redgram, Greengram, Bengalgram, Groundnut, Soyabean, Mango, Cotton, Chillies, Sugarcane etc., and agriculture has been the chief source of income for the state's economy. During 2013-14, production of total food grains was recorded at 107.49 lakh tonnes. Of the total food grains production, production of cereals and millets was 102.78 lakh tonnes, pulses 4.71 lakh tonnes. Production of oil seeds was 8.81 lakh tonnes, Chillies 2.80 lakh tonnes, Turmeric 2.52 lakh tonnes etc.

Land Utilization

The total geographical area of the State is 112.07 lakh hectares, of which the area under forest cover is 27.43 lakh hectares, constituting 23.89% of the land. About 43.20% area is under cultivation (49.61 lakh hectares), 8.36% is current fallow lands (9.60 lakh hectares), 7.79% of land is put to non-agricultural uses (8.95 lakh hectares), 5.36% is barren and uncultivable

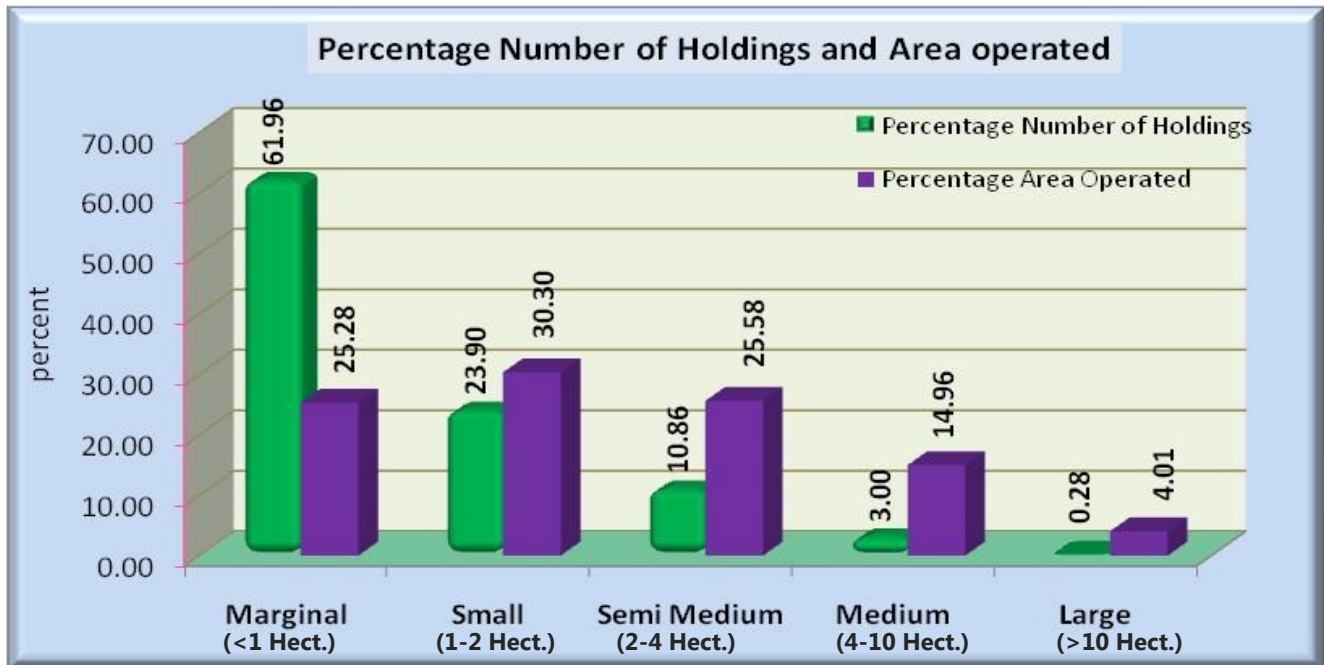

(6.15 lakh hectares) and 6.24% falls under other fallows (7.17 lakh hectares). The remaining 5.16% is under culturable waste, permanent pastures and other grazing lands, and land under miscellaneous tree crops and groves are not included in the net area sown (5.93 lakh hectares). The pattern of land use under various categories is indicated in the following chart.

Land Holding and Area Operated

As per the Agricultural Census, 2010-11, the number of holdings in the state accounted to 55.54 lakh and the area held by these holdings was 61.97 lakh hectares. The average size of the holdings in the State is 1.12 hectares, which is highly uneconomical to operate. In the State, 62.0 percent of the holdings are marginal (less than 1 hectare) and the percentage of small

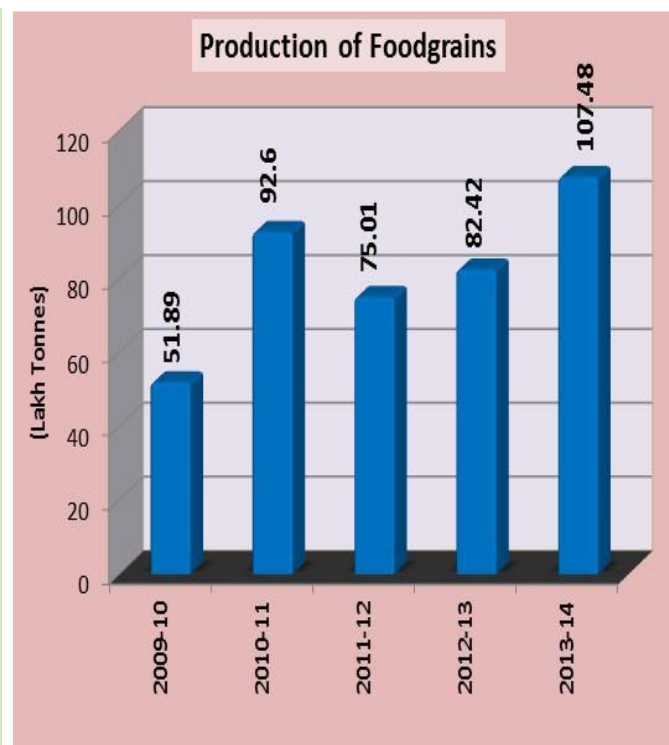

holdings (1 to 2 hectares) is 23.9%. Thus, marginal and small holdings constitute about 85.9% of total agricultural holdings in the State, making agriculture a subsistence source of livelihood for the majority of the population. Distribution of land holdings and area operated according to size classes is given in the graph below.

Area and Production of Food Grains

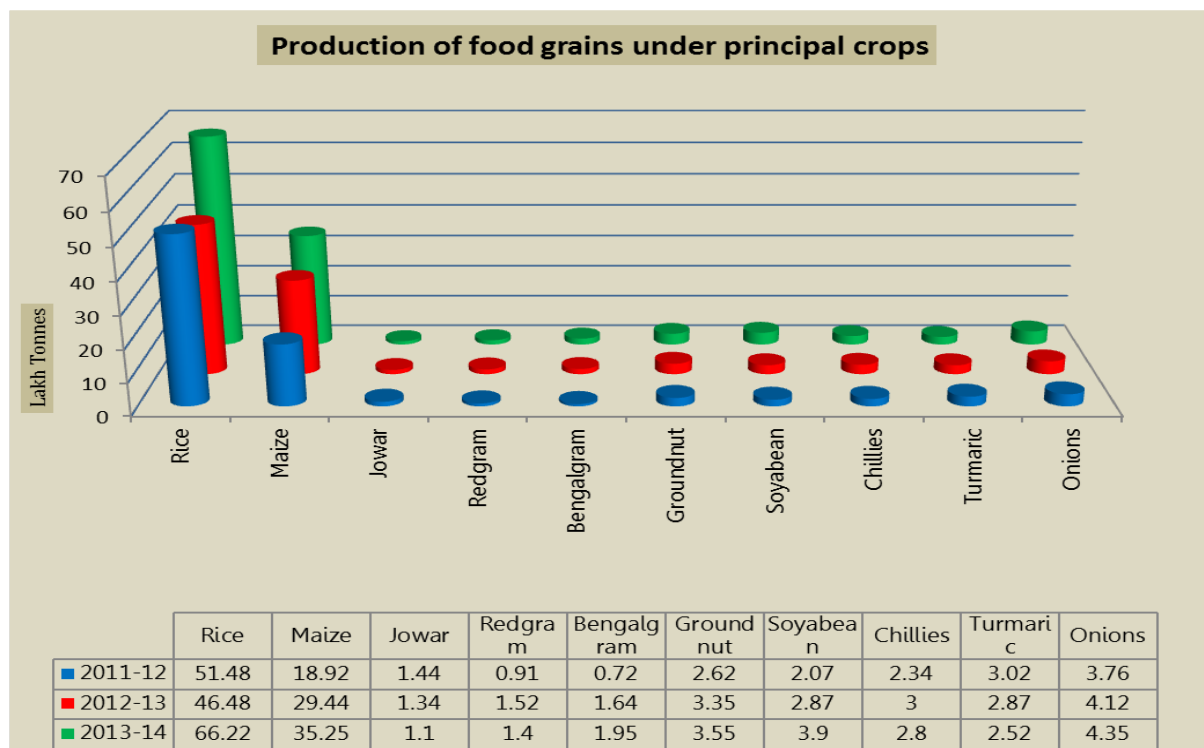

Area and production of food grains from 2009-10 to 2013-14 in the state are shown in the chart. It can be observed that the area sown is highest 34.56 lakhs hectares in 2013-14 with

production at 107.48 lakhs tonnes, whereas it was lowest in 2009-10 with an area of 26.49 lakh hectares and production of 51.89 lakh tonnes.

Production of food grains under certain principal crops

Production of food grains under certain principal crops from 2011-12 to 2013-14 is shown in the graph given below .

Crop Productivity

The average productivity (average production in kilograms per hectare of land) of principal crops during the year 2013-14 are 3297 Kgs. in respect of Rice, 1015 kgs. for Jowar, 4685 Kgs. for Maize, 1716 Kgs. for Bengal gram, 3544 Kgs. for Chillies etc.

The productivity of Groundnut crop is almost stable from 2009-10 to 2014-15 whereas

productivity of Soya bean, except in 2009-10 remains stable. In case of Palm Oil, there are fluctuations from 2009-10 to 2013-14.

Productivity of chillies crop is highest in Khammam whereas productivity of turmeric is highest in Adilabad, productivity of cotton remains more or less at the same level across the districts.

Cropping Intensity

The cropping intensity (the ratio of gross cropped area to net cropped area) is one of the indicators for assessing efficiency of agriculture sector. The cropping intensity for the year

2013-14 increased to 1.27 from 1.22 in 2012-13. The cropping intensity is highest in Nizamabad District (1.67) and lowest in Adilabad district (1.09).

5. Irrigation

Irrigation is the artificial application of water to the land or soil. It is used to assist in the growing of agricultural crops, maintenance of landscapes, and re-vegetation of disturbed soils in dry areas and during periods of inadequate rainfall. Irrigation is one of the most important critical inputs for enhancing the productivity that is required at different critical stages of plant growth. One cannot imagine agriculture without irrigation. Two important rivers of India, the Godavari and Krishna are flowing through the state and providing irrigation. Major sources of irrigation in the state are canals, tanks, tube wells, dug wells etc., and irrigation is being done

with the use of various techniques such as surface irrigation, localized irrigation, drip irrigation, sprinkler irrigation, sub-irrigation depending upon the availability of source, accessibility and others to increase the productivity of the crop grown. The gross area irrigated in the State during 2013-14 has increased to 31.64 lakh hectares from 25.57 lakh hectares in 2012-13, showing an increase of 23.74%. The net area irrigated in the state has also increased to 22.89 lakh hectares in 2013-14 as against 17.74 lakh hectares in 2012-13, showing an increase of 29.03%.

Irrigation sources

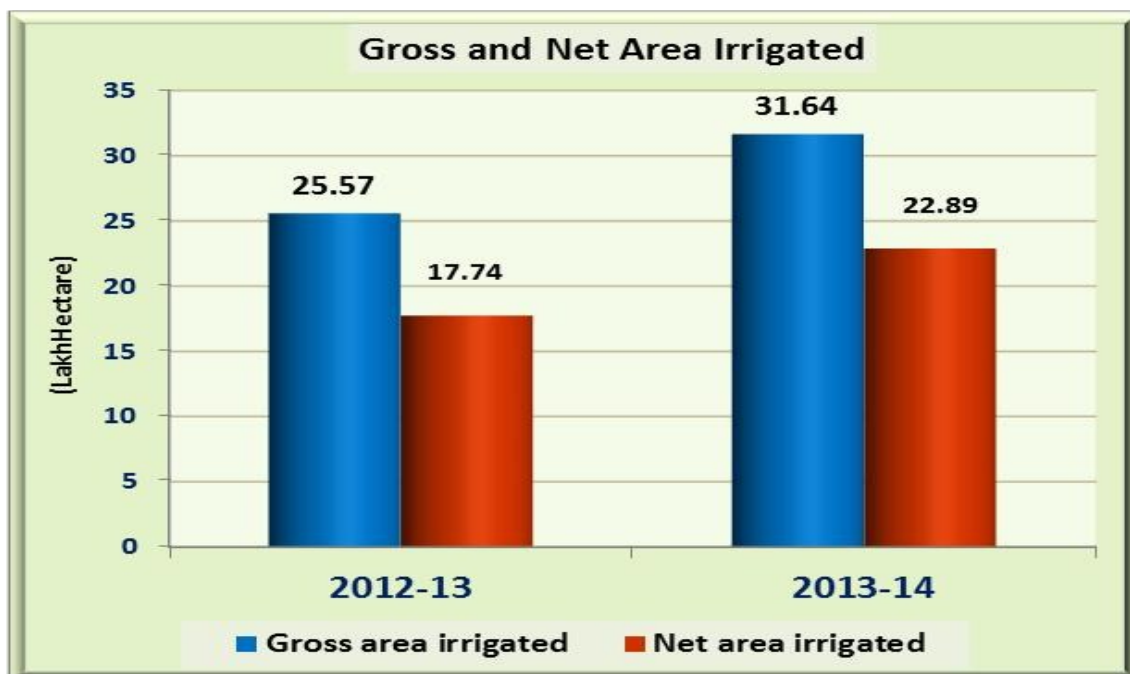

There are 6.30 lakh dug wells, 6.53 lakh tube wells, 0.50 lakh surface flow and lift irrigation sources are catering to the needs of agriculture,

according to the fourth Minor Irrigation Census conducted in the state during 2006-07

Gross and Net Area Irrigated

The gross area irrigated in the State during 2013-14 has increased to 31.64 lakh hectares from 25.57 lakh hectares in 2012-13, showing an increase of 23.74%. The net area irrigated in the

state has also increased to 22.89 lakh hectares in 2013-14 as against 17.74 lakh hectares in 2012-13, showing an increase of 29.03%.

The ratio of net area irrigated to the net area sown during the year 2013-14 is 46.14% and for Kharif 2014-15, the same is 35.86%. The details

of the ratios from 2008-09 to 2014-15 Kharif are shown below.

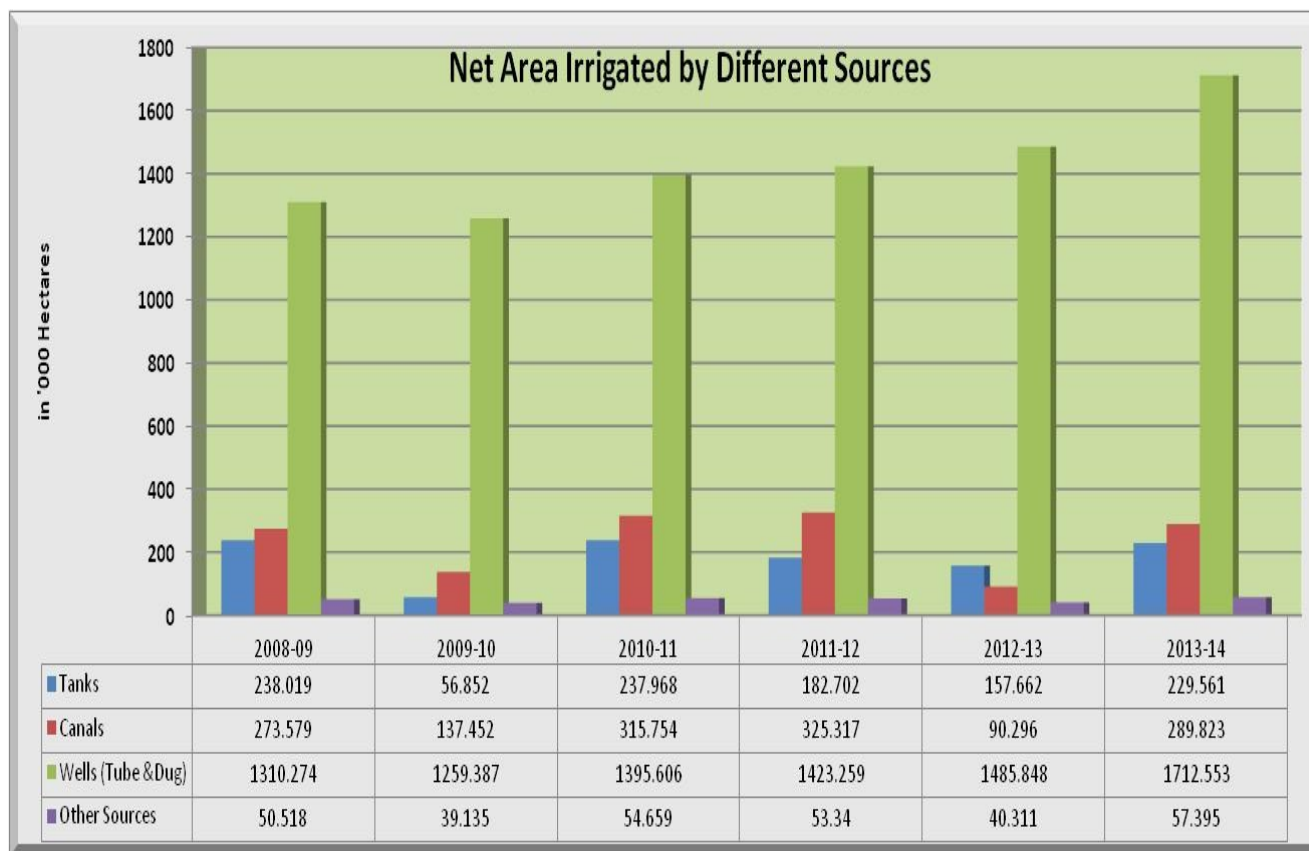

Table	Content
5.1	Source wise Potential created and Area Actually Irrigated according to Minor Irrigation Census
5.2	Number of Minor Irrigation Sources according to various Minor Irrigation Censuses
5.3	Source wise Number of Minor Irrigation Sources created and Area Irrigated according to 3rd and 4th MI Census
5.4	Minor Irrigation Sources as per 4th Minor Irrigation Census, 2006-07
5.5	Gross Area Irrigated by different Sources, 2008-09 to 2013-14
5.6	Net Area Irrigated by different Sources, 2008-09 to 2013-14
5.7	Area Irrigated by different Sources by Districts, 2013-14
5.8	Crop wise Gross Area Irrigated under Food and Non-Food Crops, 2009-10 to 2013-14
5.9	Area Irrigated under different Food and Non Food Crops by Districts, 2013-14

6. Livestock and Fisheries

Animal Husbandry sector consists of bovine, ovine, pig and poultry population. Bovine population is further classified into cattle and buffaloes and ovine population into sheep and goat. Telangana is well off with livestock

resources, especially Sheep population accounting to 19.80% of total Country's sheep population. The State stands 2nd in Sheep population, 13th in Goat population, in the country as per the Livestock Census, 2012.

Animal Health Care Services

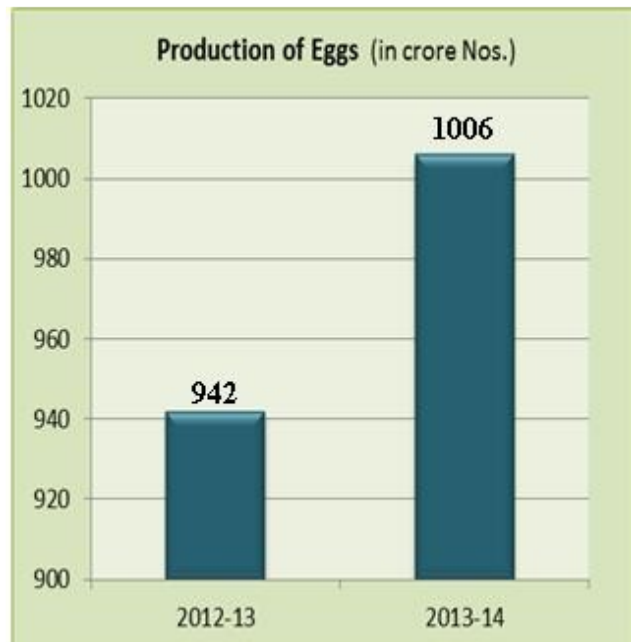

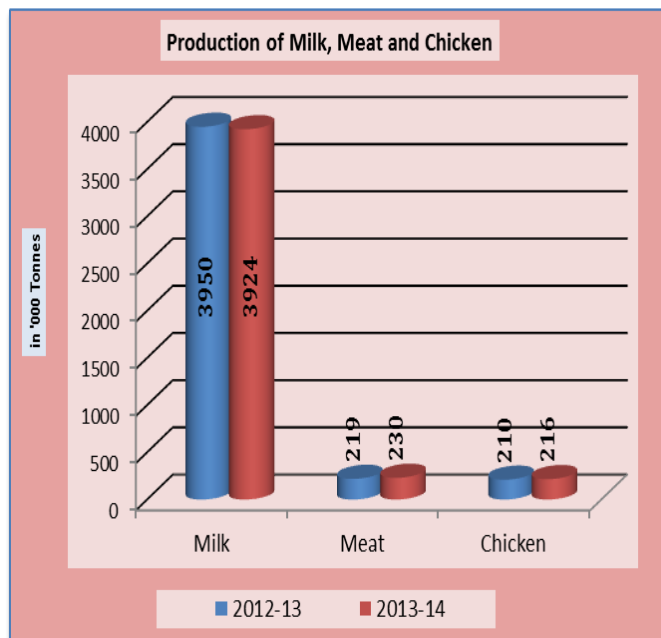

The important animal health care services available during the year 2013-14 are Veterinary Polyclinics (8), Super Specialty Veterinary Hospital (1), Veterinary Hospitals (101),

Veterinary Dispensaries (917), Mobile Veterinary Clinics (11) and (1105) Rural Livestock Units are functioning to render animal health care services in the state.

Milk, Meat and Eggs Production

The State had produced 3924 thousand tonnes of Milk, 230.29 thousand tonnes of meat

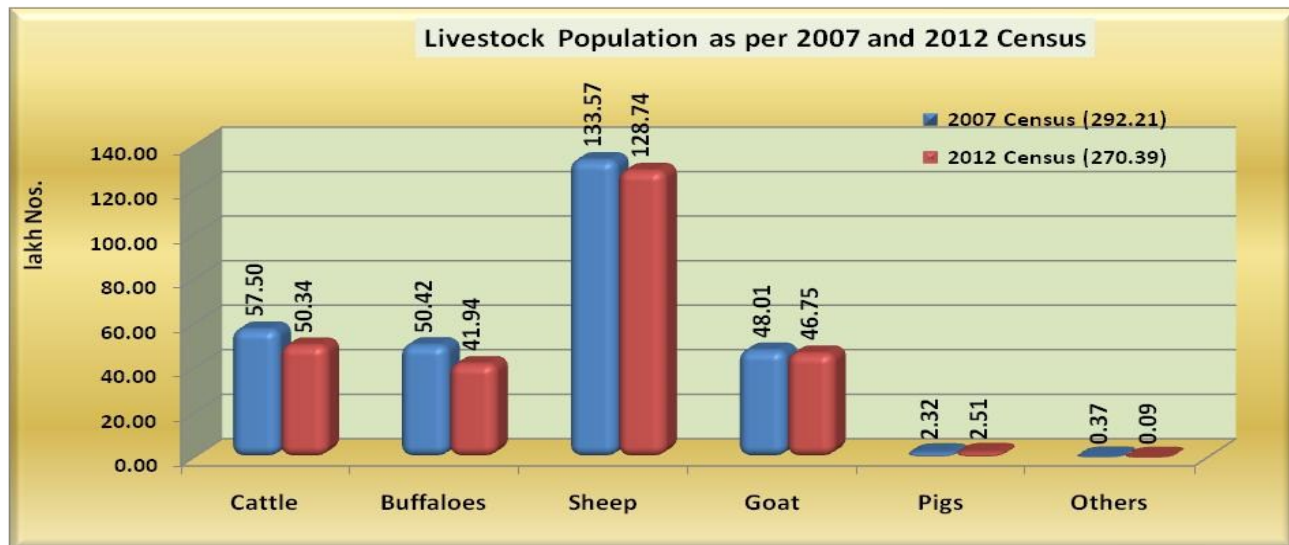

and 216.05 thousand tonnes of chicken and 1006 crore eggs during 2013-14.

Composition of Livestock Population

According to Livestock Census of 2012, the State has a population of 50.34 lakh cattle,

41.94 lakh buffaloes, 128.75 lakh sheep, 46.75 lakh goat and 691.59 lakh poultry.

Fisheries

Fisheries sector is one of the fast growing sectors, provides cheap and nutritious food and source of livelihood for a large section of economically backward population of the state.

the year 2013-14 is 249633 MTs, in terms of value it is Rs. 247987 lakhs and its contribution is 0.6% in GSDP. Production of inland fish, including prawns is given in the following chart.

The production of inland fish and prawn during

7. Forests

The Central Deccan Plateau dry deciduous forests eco-region covers much of the state, including Hyderabad. The characteristic vegetation is woodlands of *Hardwickiabinata* and *Albiziaamara*. Over 80% of the original forest cover has been cleared for agriculture, timber harvesting, or cattle grazing, but large blocks of forest can be found in Nagarjunsagar-Srisailam Tiger Reserve and elsewhere. The more humid Eastern Highlands moist deciduous forests cover the Eastern Ghats in the eastern part of the state. Forests cover is critical for living environment, as it influences the quality and quantity of air and water and plays a major role in supporting livelihood activities of rural poor, contributing to the economy of the State, mitigating the threat of Global warming besides conserving the fertile soil and vulnerable Wildlife.

Forestry and logging contribution to state GSDP at current prices is 0.9% and 5.02% in Agriculture sector GSDP for the year 2014-15. The core objective of forest sector is to enhance green cover by integrating it with livelihood.

The Geographical area of the Telangana State for the year 2013-14 (Combined State) is 1,14,840 Sq. kms., and stood at 12th position in India, having 29,242 Sq. kms., forest area which accounts for 25.46% of total geographical area, including social forestry. Out of 29,242 Sq.kms., Reserved Forest area is 21,024 Sq.kms., Protected Forest forms 7468 Sq.kms., and the rest of 750 Sq. kms., are unclassified. The total revenue realized during 2013-14 is Rs. 148.28 crores on sale of forest produce in the state.

The district wise geographical area and the corresponding forest area for the state of Telangana is depicted in the graph below.

Social Forestry

The Government has launched a massive people's movement involving general public and farmers in a big way to increase tree cover outside reserve forests to improve and protect the environment and also to provide gainful employment. The main components of social

forestry are distribution of seedlings, raising of plantations in community lands, institutions and road side avenues.

The main species raised for free distribution and planting in public lands are Raavi, Marri, Neem, Kanuga, Badam, Neredu, Rela and others.

National Parks and Sanctuaries

There are three National Parks in the state viz., Kasu Brahmananda Reddy National Park in Hyderabad district, Mahavir Harina Vanasthali National Park and Mrugavani National Park in Ranga Reddy district.

Wild life Sanctuaries in the state include Eturunagaram Wildlife Sanctuary and Pakhal Wildlife Sanctuary in Warangal district, Kawal

Tiger Reserve and Pranahita Wildlife Sanctuary in Adilabad district, Kinnerasani Wildlife Sanctuary in Khammam district, Manjeera Wildlife Sanctuary in Medak district, Nagarjun-sagar-Srisailem Tiger Reserve in Nalgonda and Mahabubnagar districts, Pocharam Wildlife Sanctuary in Medak and Nizamabad districts, Shivaram Wildlife Sanctuary in Karimnagar district.

Note: Tall and very tall seedlings indicates the length of the seedling at the time of distribution of seedlings.

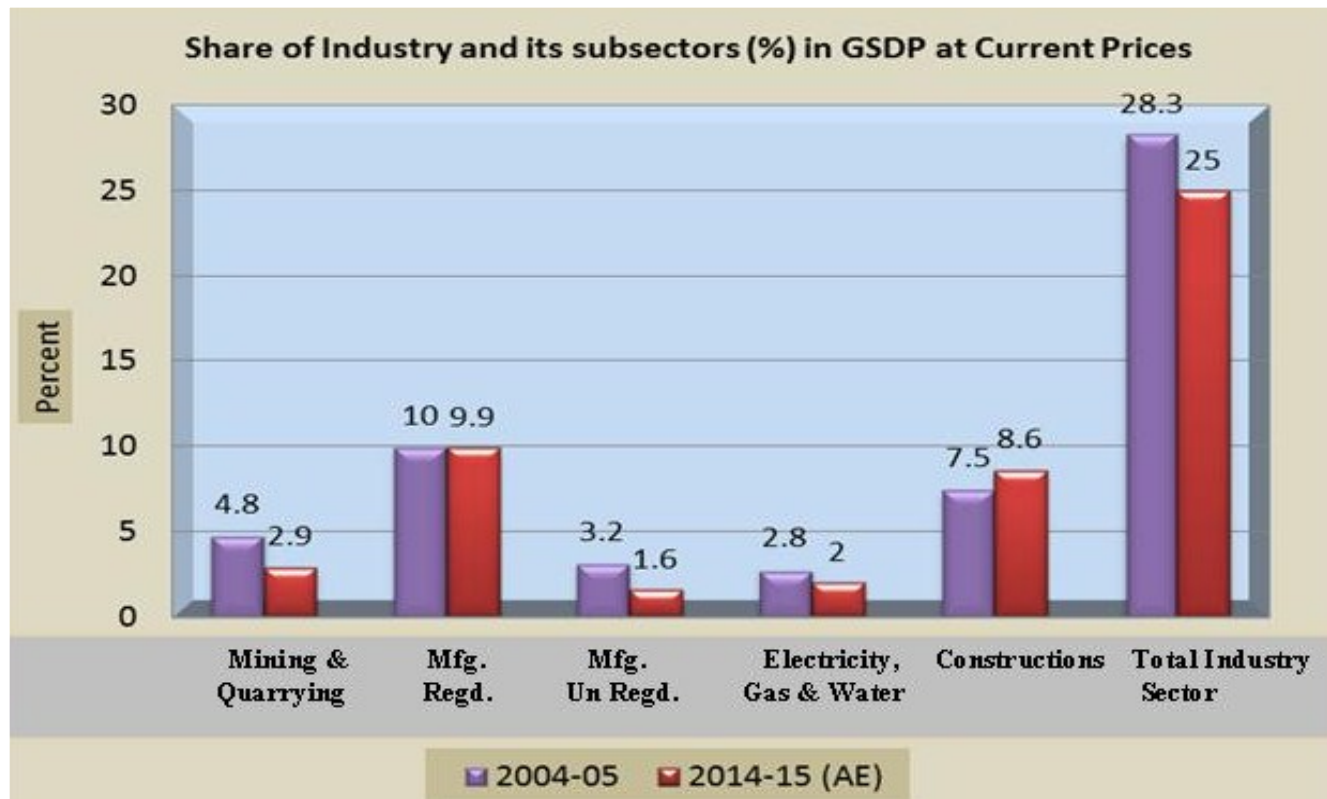

8. Industries

The State of Telangana is home for several major manufacturing industries in bulk drugs, pharmaceuticals, agro-processing, cement & mineral-based industries, high precision engineering, textiles, leather, apparels, automobiles and auto components industry, spices, horticulture, poultry farming, biotechnology, defense equipment etc.

The Industrial Sector is contributing around 25% to 30% to the Gross State Domestic Product with a direction of positive growth in the state. The long-term average annual growth of

industries comprising mining & quarrying; manufacturing, electricity, gas and water supply and construction, during the period between 2005-06 and 2014-15, averaged at 7.8% as against GSDP growth of 9.4% in the state. The contribution of industry sector is showing almost the same trend in respect of share and growth as that of all India.

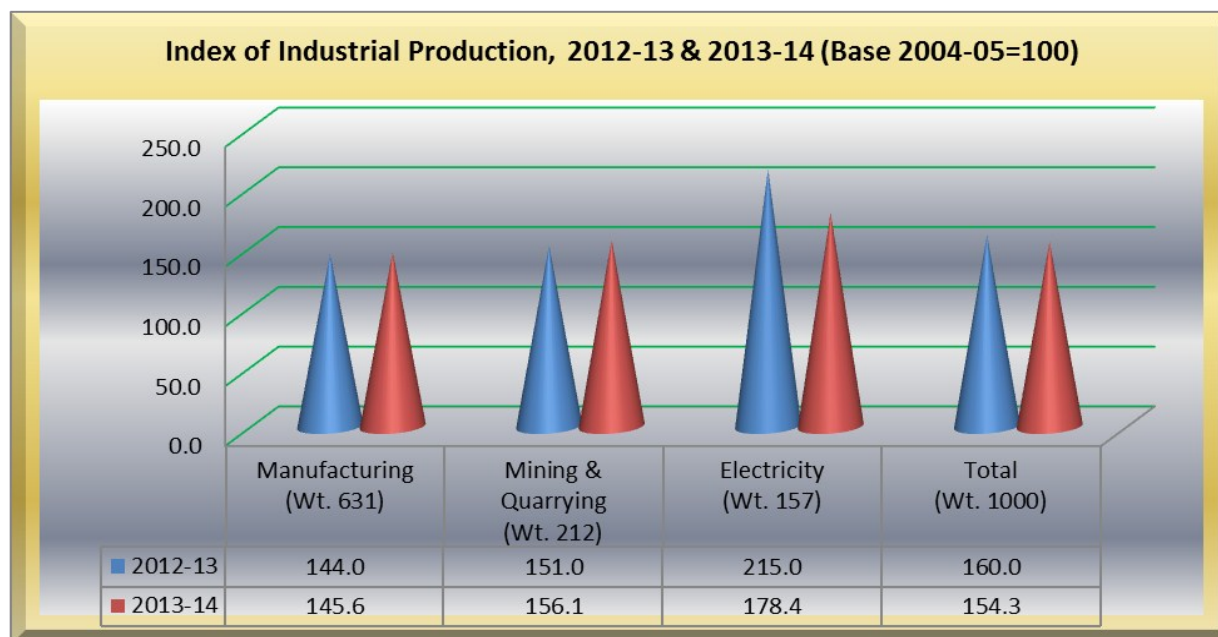

The performance of the Industries sector is being monitored primarily through Index of Industrial Production (IIP).

Index of Industrial Production

Index of Industrial Production is the measure of Industrial growth of a state at a particular point of time. It indicates the relative change of

physical production in the field of Industries for a given period of time as compared to previous year or reference period

Annual Survey of Industries

The Annual Survey of Industries is the principal source of organized manufacturing statistics in India and in the state as well. It provides statistical information to assess and evaluate, objectively and realistically, the changes in the growth, composition and structure of organized manufacturing sector comprising activities related to manufacturing processes, repair services, gas and water supply and cold storage. The Survey is conducted annually under the statutory provisions of the Collection of Statistics Act, 2008 and Rules, 2011. The Annual Survey of Industries covers all factories registered under sections 2m(i) and

2m(ii) of the Factory Act, 1948. The survey also covers Bidi and Cigar manufacturing establishments registered under Bidi and Cigar Workers (Condition of Employment) Act, 1966 and employing 10 or more workers using power and 20 or more workers not using power.

The data pertaining to factories registered under sections 2m (i) and 2m (ii) of the Factory Act, 1948, distribution and working of factories by districts industry wise, results of Annual Survey of Industries, 2011-12 and Index of Industrial Production in the state from 2010-11 to 2013-14, is presented in this chapter.

Table	Content
8.1	Working of Factories Registered under Sections Factories Act, Sections 2m(i) and 2m(ii)
8.2	Distribution of Factories and their related Important Parameters, 2011-12
8.3	Working of Primary Weavers Co-operative Societies, 2013-14
8.4	Industry Code wise Number of Factories in 2010-11 and 2011-12
8.5	Index of Industrial Production from 2010-11 to 2013-14
8.6	Factories Working under Factories Act, Industry wise and Persons Employed as on 31.12.2012
8.7	Factories Registered under Sections 2m(i), 2m(ii) and 85(i) of Factories Act

TABLE-8.4

INDUSTRY CODE WISE NUMBER OF FACTORIES IN 2010-11 AND 2011-12

Code	Description of Industry	2010-11	2011-12
01	Agriculture, hunting and related service activities	393	392
10	Manufacturing of food products	2,589	2,490
11	Manufacture of beverages	66	69
12	Manufacture of tobacco products	78	72
13	Manufacture of textiles	139	136
14	Manufacture of wearing apparel; dressing and dyeing of fur	44	37
15	Manufacture of tanning and dressing of leather, Footwear	36	22
16	Manufacture of wood and products and wood crafts	90	112
17	Manufacture of paper and paper products	259	208
18	Publishing, printing and reproduction of record media	157	187
19	Manufacture of coke, refined petroleum products and nuclear gas	23	33
20	Manufacture of chemicals and chemical products	398	300
21	Manufacture of pharmaceuticals	425	392
22	Manufacture of rubber and plastic products	629	741
23	Manufacture of other non-metallic mineral products	1208	1453
24	Manufacture basic metals	425	414
25	Manufacture of fabricated metal products, except machinery & equipments	660	665
26	Manufacture of computer, electronic and other optical products	106	108
27	Manufacture of electrical equipment	417	320
28	Manufacture of machinery and equipments	375	322
29	Manufacture of motor vehicles, trailers, and semi trailers	46	56
30	Manufacture of other transport equipment	21	22
31	Manufacture of furniture, manufacturing n.e.c.	45	57
32	Other manufacturing	29	25
33	Repair and installation of machinery and equipment	5	3
35	Electricity, gas, steam and water supply	16	16
37	Sewerage	3	3
38	Waste collection	2	4
45	Sale, maintenance and repair of motor vehicles and motor cycles	154	185
49	Transport service	1	1
52	Warehousing and support activities	61	70
58	Publishing activities (newspaper printing and publishing)	42	58
59	Motion Picture, video & television Programme, Production Sound recording & Music Publishing Activities.	7	6
	Others	31	26
	Total	8,980	9,005

9. Mining

Telangana region has rich natural resources. About 20 per cent of the country's coal deposits in the country are also found here. The Singareni Collieries Company Limited excavates coal from these mines for industrial needs and to cater thermal power stations. Telangana is also rich in limestone deposits that cater to cement factories. Telangana has other mineral resources like bauxite and mica.

Minerals and mineral industries have significant macro links with the economy of a country. Mining activity generates employment

opportunities; is obviously an important source of tax revenue and contributes to state income thereby leading to economic growth.

Mining is one of the core sectors that drive growth in an economy. Not only does it contribute to GDP, it also acts as a catalyst for the growth of other core industries like power, steel, cement, etc., which, in turn, are critical for the overall development of the economy.

The value of major and minor minerals produced for the year 2013-14 is given in the following graph.

Production of principal minerals

The production of certain principal minerals during the year 2013-14 are 504.71 lakh tonnes of Coal, 263.68 lakh tonnes of Limestone, 34.89

lakh tonnes of Stowing Sand, 17.68 lakh tonnes of Laterite, 6.43 lakh tonnes of Feldspar, 5.86 lakh tonnes of Dolomite etc., in the state.

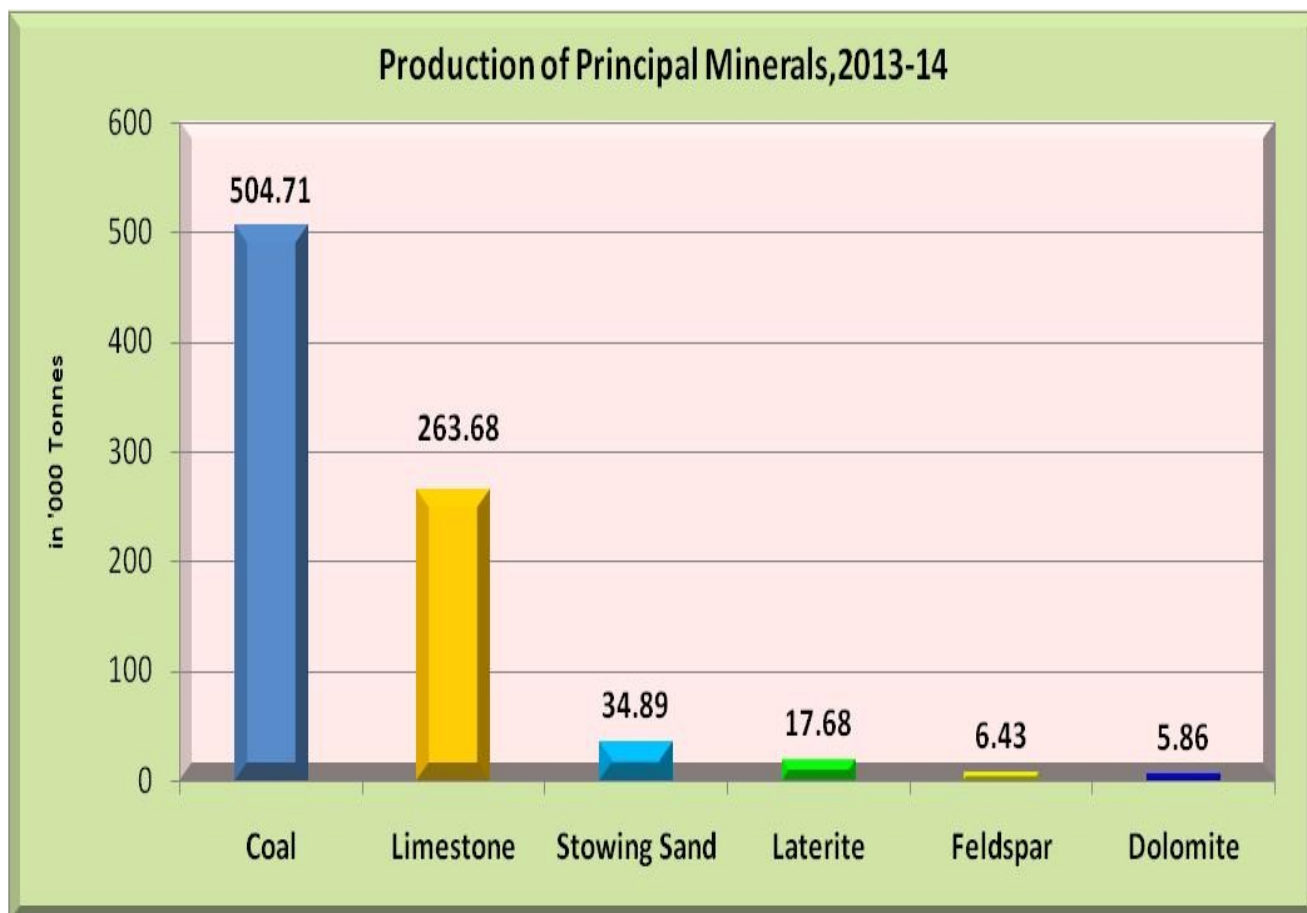

Table	Content
9.1	Production of Principal Minerals, 2013-14
9.2	Production of Principal Minerals by Districts, 2013-14
9.3	Production and Consumption of Indigenous Coal, 2010-11 to 2013-14

10. Energy

Electric Energy is considered to be the most versatile and important source of power consumed by industry, commercial buildings, institutions and residents. In one sentence energy is required for all facets of our life and also a basic human need and is a critical infrastructure for socio economic development of a state or nation. It is supplied by generating stations. Traditional generating stations manufacture power in electrical generators. This

is accomplished by turning those generators with turbines that are in turned by a number of sources. In the case of fossil-fuel burning stations, energy sources such as coal, oil, natural gas (actually, any source of fuel that is carbon based) are used to boil water. That water is boiled into high pressure steam. This high pressure steam is what turns the turbines that turn the generator that in turn manufactures Electric Energy.

Service Connections

There are 261.46 lakh service connections are available with a connected load of 54725 MW in the state and consumed 72518 MUs during the year 2013-14, including both

low tension and high tension. Category wise number of service connections and their consumption during 2013-14 is given in the following chart.

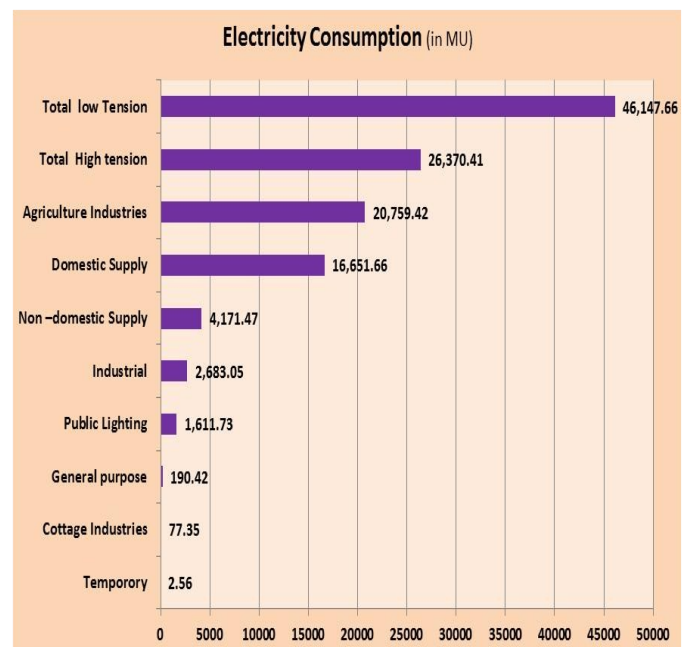

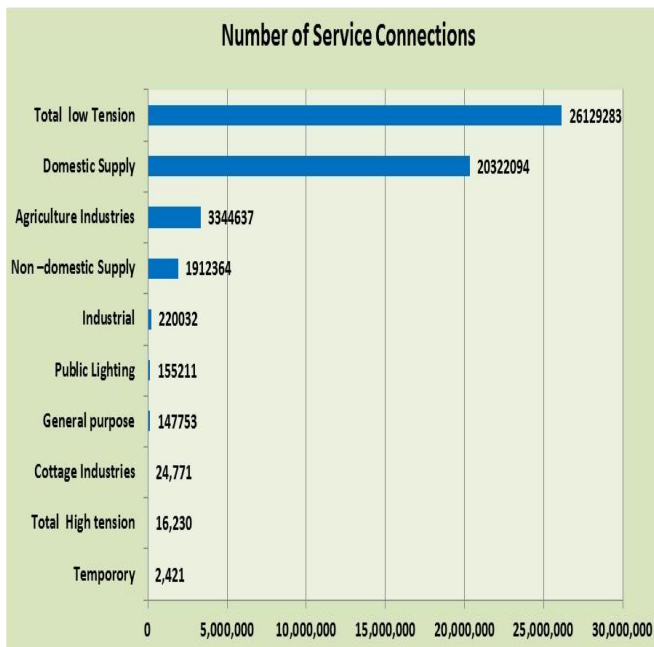

Table	Content
10.1	Installed Capacity and Generation of Electricity, 2013 and 2014
10.2	Growth of Transmission and Distribution Lines
10.3	Category wise Number of Services, Connected Load and Power Consumption
10.4	Per Capita Consumption of Electricity, 2012-13 and 2013-14 (utility only)
10.5	Low Tension SPDCL and NPDCL Sales, 2013-14 (Provisional)
10.6	High Tension SPDCL and NPDCL Sales, 2013-14 (Provisional)
10.7	Agricultural Services Released at the end of 2013-14
10.8	Category wise Number of Services and Connected Load, 2013-14 (Provisional)
10.9	Utilization of Non-Conventional Energy, 2012-13 and 2013-14

11. Transport and Communications

Roads

Availability of the transport road network plays an important role in the economic development and, therefore, the kilometrage of paved roads existing in a country is often used as an index to assess the extent of its development. The proper development of the transport road network not only reduces the cost of transportation, both in terms of money and time, but also helps in the integration of various parts of the state or country. The transport road network contributes to the development of the state by bringing in direct benefits in the development of some sectors, such as agriculture, industry, minerals and commerce.

As such a systematic development of Roads is one of the important pre-requisites for development and acceleration of economic growth. The

importance is much more in a State like Telangana whose economy is from service sector and has chosen manufacturing as its future, where the rail connectivity is poor and where the rural areas are hardly covered by the rail network.

Among the different modes of domestic transport systems, road transport carries more than 80% of the goods and passenger traffic. The network of roads, particularly from rural to urban facilitates speedy movement of goods and services and ensures higher growth trends, social integrity and wellbeing of the society. The productivity and efficiency of Road transport is directly linked with the availability and quality of Road network.

Railways

Indian Railways have a history and rich heritage spanning over 150 years. Indian Railways is a state owned public utility of Government of India under the Ministry of Railways. As a national common carrier transporting passenger and goods over vast network of 65,436 kms., route lengths and it has been playing a key role in country's as well as

states' social and economic development. It is a cheap and affordable means of transportation for millions of passengers. As a carrier of bulk freight namely ores and minerals, iron and steel, Cement, mineral oils, food grains, fertilizers etc., and the importance of Indian Railways for development of Agriculture, Industry and for the benefit of common men is well recognized.

Rail Network: As on 31.03.2014, the Indian railways are rendering its services by establishing 228 railway

stations with a route kilometrage of 1753 in the state.

Transport

Road Transport plays a prominent role in the economic development of the State. The Transport Department plays a key role in issuing driving licences, registration of motor vehicles, issue of transport permits, levy and collection of motor vehicle tax, enforcement of vehicle violations and acts as nodal agency for road safety.

During the year 2013-14, the State has registry of more than 71.94 lakh vehicles, of which 8.22 lakh are transport vehicles, 63.68 are non-transport vehicles. Out of the total vehicles, 52.84 lakh are two wheelers.

12. Public Finance

It is obvious that the budget of the Government has considerable impact on the economy of the state as a whole. Due to its sheer size, as reflected in high magnitude of receipts and expenditure of Government and various policy prescriptions articulated through the Budget, it can be easily considered to be the prime mover of the growth trajectory of the economy. The State Government, since it is formed very recently and ambitious to develop

the state in all respects in the light of aspirations of its citizens across the state. The Budget for 2014-15, was presented against the backdrop of the GSDP growth rate of the economy and the aspirations of the citizens on one hand and the challenges in front of the state Government to withstand to accelerate the development and welfare programmes on the other hand.

Overall budget provisions for the year 2014-15 is depicted in the following graphs.

Collection of Sales Tax

The performance made by the Commercial Tax Department during the years 2011-12, 2012-13 and 2013-14 are Rs.29,236.32 Crore, Rs.35,068.26 Crore and Rs.43,469.40 Crore, respectively part from state budget, attempt has

been made to cover the revenue from excise and revenue departments.

The sales tax realized from Petrol, Liquor, Cigarettes, PSUS etc., pertains to combined state and is included in the total.

13. State Economy

Gross State Domestic Product (GSDP) is the most important indicator for measuring the economic growth of a state. Gross State Domestic Product (GSDP) is a measure in monetary terms the total volume of all goods and services produced during a given period of time (usually one year) within the geographical boundaries of the state, accounted without duplication. These estimates, over a period of time, reveal the extent and direction of changes in the level of economic development and also the performance made by various sectors towards the overall economy. The sectoral

composition of SDP gives an idea of the relative position of different sectors in the economy over a period of time which not only indicates the real structural changes that are taking place in the economy but also facilitates formulation of policies for overall economic development. When studied in relation to the total population of the state, they indicate the level of per capita net output of goods and services available or the relative standard of living of the people in the State. These are referred as estimates of Per Capita Income (PCI).

Anticipated GSDP during 2014-15

The anticipated Gross State Domestic Product at constant (2004-05) prices for the year 2014-15 is estimated at Rs.2,17,432 crores, as against Rs.2,06,427 crores for 2013-14, reflecting a growth of 5.3%. The state has recorded a growth rate of 4.1% in 2012-13, 4.8% in 2013-14, and it was 5.3% in 2014-15 at constant prices.

The state GSDP at constant (2004-05) prices recorded double digit growth from 2005-06 to 2008-09 and 2010-11, there after it is

experiencing steep downward trend in subsequent years with a low growth of 1.1% in 2009-10.

The GSDP at current prices for the year 2014-15 is estimated at Rs. 4,30,599 crores, as against Rs. 3,91,751 crores for 2013-14 with a growth rate of 9.9%. GSDP of the State at Current and Constant (2004-05) prices are shown in the graph given below.

TRE: Third Revised Estimates, SRE: Second Revised Estimates, FRE: First Revised Estimates; AE: Advance Estimates

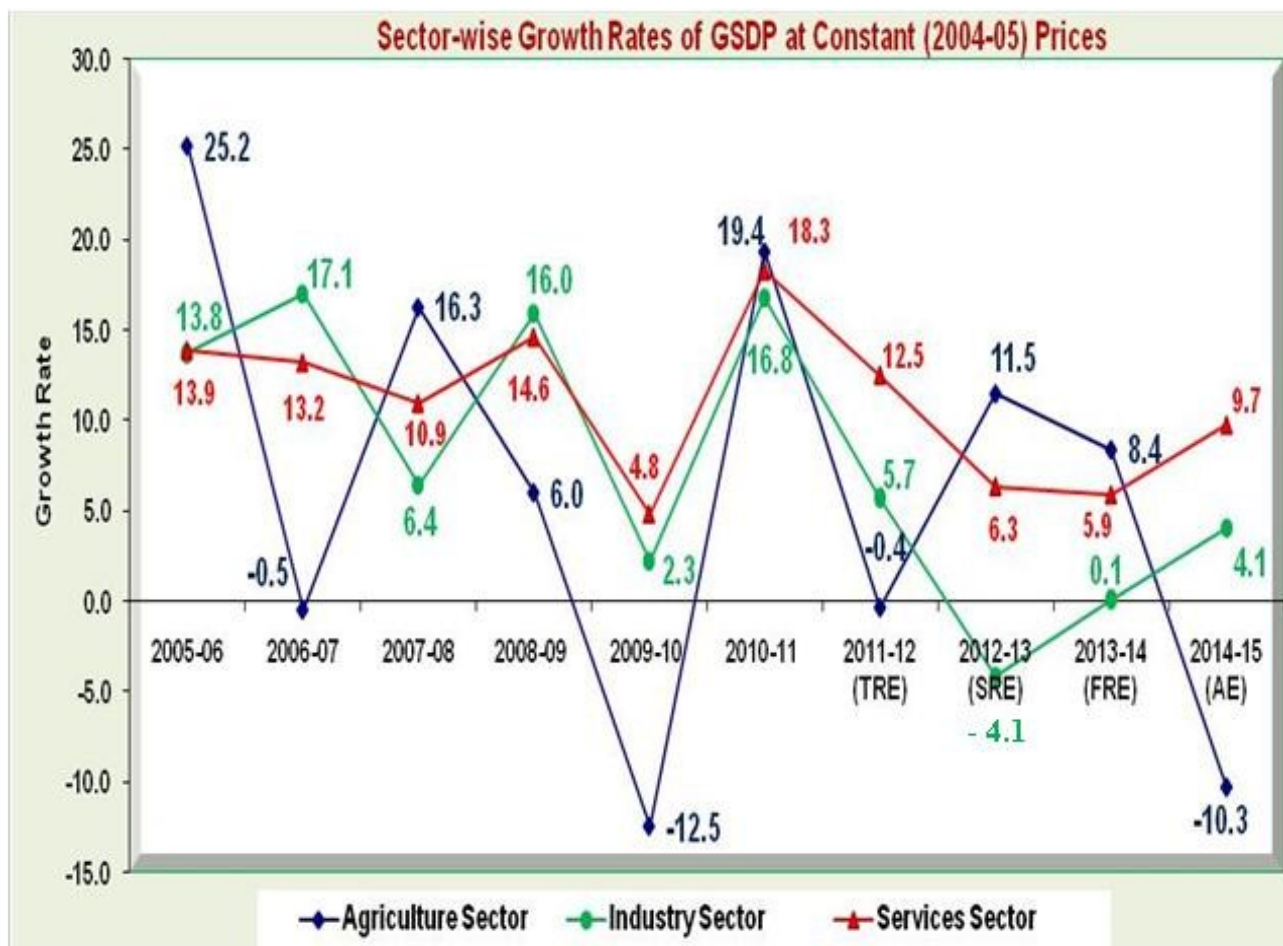

Trends in Sectoral Growth

The growth rate of GSDP denotes the performance of a State's economy; while the performance of each sector reflects the change in the magnitude and composition of GSDP of the State economy over time. The change in the relative sectoral shares in GSDP manifests the structural change in the overall economy. The economy has been broadly classified as Agriculture, Industry and Services. The Agriculture Sector consists of agriculture, livestock, forestry and fisheries. The Industry Sector contains mining and quarrying, manufacturing, electricity, gas and water supply and construction sectors. The Services Sector consists of trade, hotels and restaurants; transport by other means and storage; railways; communications; banking and insurance; real estate, ownership of dwellings and business services; public administration and other services.

The sectoral analysis reveals that during the year 2014-15, the growth rate of GSDP is highest in services sector with 9.7% followed by Industry sector with a growth of 4.1% and agriculture sector expected a negative growth of (-) 10.3%. The growth estimate of 5.3% would have been better, but for the negative growth of -10.3% recorded in agriculture and allied sector, attributed mainly to the adverse seasonal conditions. Agriculture as such was badly hit due to this and recorded negative growth of (-) 21.3%, which was partially compensated by the positive growth trends in Livestock (6.5%),

Forestry & Logging (2.7%) and Fisheries (11.4%). Consequently, the contribution of Agriculture sector declined to 12.8% from 15.1% in the previous year. The contribution of Industry sector is estimated to be 24.3% without much variation compared to the past year and the Services sector is estimated to contribute a higher percent of 62.9%, as against 60.3% in 2013-14. The percentage contribution of various sectors of the GSDP at current and constant (2004-05) prices for the year 2014-15 are as shown in the graph below.

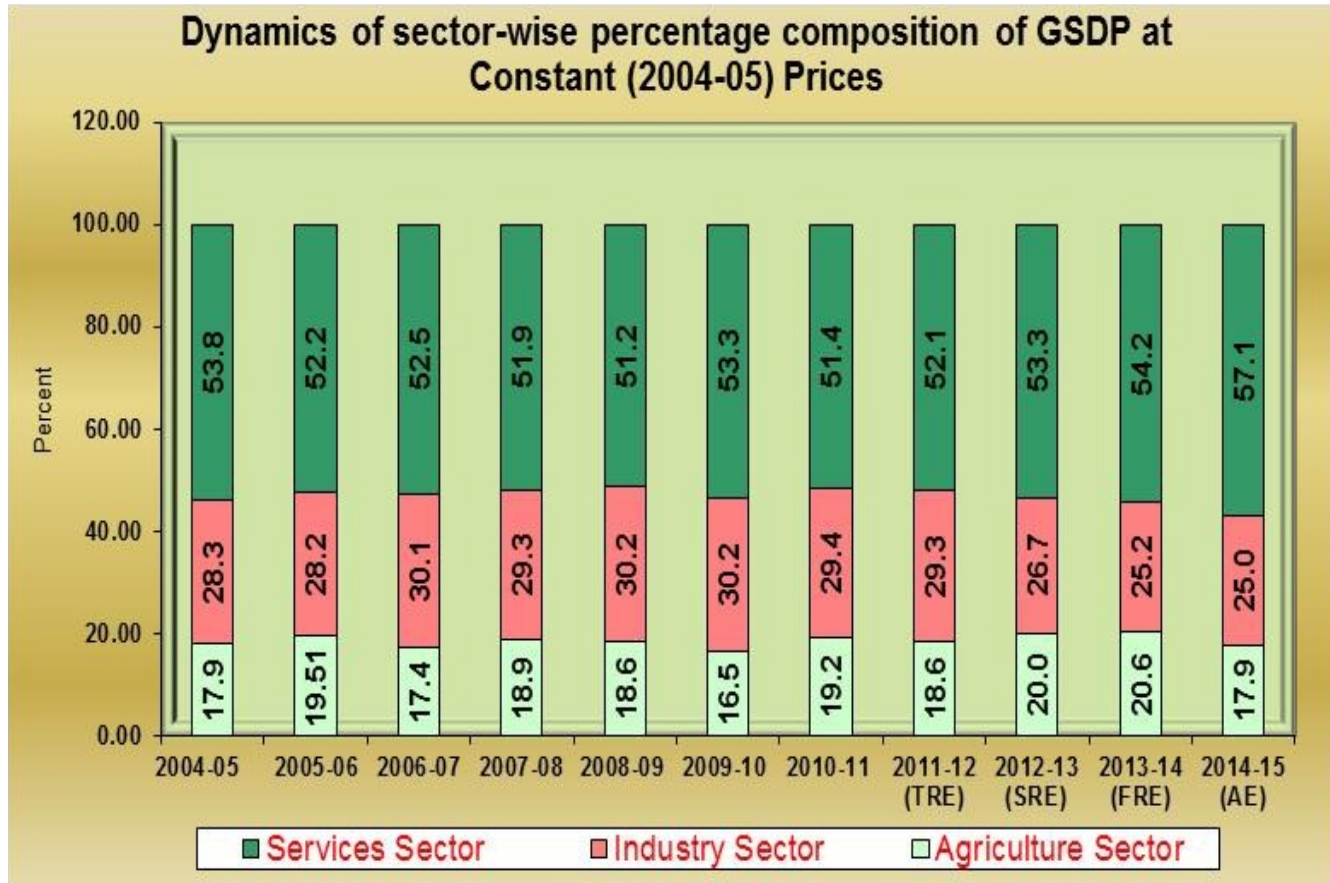

The structural composition of the state economy witnessed significant changes during the last decade. During the period from 2005-06 to 2014-15, Agriculture sector recorded highest growth rate of 25.2% in 2005-06, the Services sectors with 18.3% in 2010-11 and Industry sector with 17.1% in 2006-07. Within the Agriculture sector, the only Livestock sector show positive growth rate, while other three subsectors have registered a mixed growth over the years. Within the services sector, transport by other means and storage; communications; banking and insurance; real estate, ownership of dwellings and business services and other services, have registered a positive growth, while trade, hotels and restaurants; railways and public administration have shown mixed growth over the years. Within the industry sector also, all the sub-sectors have registered mixed trend of growth during the period 2005-06 to 2014-15.

Structure of the Economy

The composition of GSDP is changing significantly over the years. The Agriculture sector is largely depending on the vagaries of seasonal conditions and receipt of rainfall. At current prices, the share of Agriculture sector in GSDP is ranging from 16.5% and 20.6 percent during the period from 2005-06 to 2014-15. The State witnessed the falling share of agriculture sector in overall GSDP as well as fluctuating trend of growth rates during last few years. Agriculture sector has been experiencing a decelerating trend in the State in recent years,

and its declining share in state GSDP is consistent with normal development path of any economy. The decline in the share of agricultural sector is almost compensated by the Services sector, which increased its share from 51% to 57% during said period. The share of Industry sector is floating between 25% and 30% during the period from 2004-05 to 2014-15. The sector wise shares of the GSDP at constant (2004-05) prices and current prices is depicted in the following Chart.

Per Capita Income

The per capita income gives a better picture about the level of development in a State, which is considered to be a proxy indicator for the standard of living of the people. As per the Advance Estimates for 2014-15, the Per Capita Income of the State at current prices increased to Rs. 1,03,889, from Rs. 95,361 in 2013-14, registering a growth of 8.9%, which is higher than the National Per Capita Income of Rs. 88,533. The Per Capita Income at constant (2004-05) prices has also gone up from Rs. 48,881 in 2013-14 to Rs. 51,017 in 2014-15, registering a growth rate of 4.4%. The Per Capita Income in the State has remained consistently

higher than the National Per Capita Income throughout the period from 2004-05 to 2014-15. The Per Capita Income of the state increased from about Rs. 24,409 in 2004-05 to Rs. 1,03,889 at current prices in 2014-15. In Telangana, six out of ten districts have per capita income lower than the State Per Capita Income. The districts that have higher per capita income than the state average are Hyderabad, Rangareddy, Medak and Khammam. This indicates that economic growth is not evenly distributed but concentrated in and around urban areas in the state.

Gross District Domestic Product

The estimate of Gross District Domestic Product (GDDP) is most important indicator to measure the economic growth or development of a district, vis-à-vis, other districts. These estimates reveal the size of the district economy and also to assess how the district is progressing over a period of time. As per the GDDP estimates for the year 2013-14 at current prices, Hyderabad occupies the highest position followed by Rangareddy and Medak districts.

These three districts account for about 45% of state GDP. On the other hand, the rest of seven districts together account for about 55% of the state GDP. The GDDP of the three major districts grew at the average rate of more than 10% from 2004-05 to 2013-14. Whereas, Adilabad district GDDP grew at an average growth of 5.9 percent which is lowest among all the districts during the period.

14. Joint Stock Companies

A company is an incorporated association of persons formed usually for the pursuit of some commercial purpose. Any establishment formed and registered under the Section 3(1) of Indian Companies Act, 1956 is known as company or a company which is formed and registered under any of the previous company laws also termed as company.

A Joint Stock Company is a voluntary association of individuals for profit, having its capital divided into transferable shares, the ownership of which is the condition of membership. The individuals or entities in possession of shares are called shareholders.

A Joint Stock Company is a type of corporation or partnership involving two or more individuals that own shares of stock in the enables the companies to perform their activities according to the predetermined plans, without intervention of the company.

As on 31-03-2014, there are 66 companies in public sector, 5690 in private sector, totaling to 5756 companies working in the state with a paid-up capital of Rs. 62.00 Crores, Rs. 2280.00 Crores, totaling to Rs. 2342.00 Crores respectively. Apart from discharging their legitimate functions, they are providing employment to thousands of unemployed and contributing their share in the economy of the state.

15. Banks

A Bank is a financial institution which accepts money from the public for the purpose of lending or investment repayable on demand or otherwise withdrawal by cheques, drafts or order or otherwise. They are not only the store houses of wealth but also the reservoirs of resources necessary for economic development.

“An Institution, such as the banking system, which touches and should touch the lives of millions, has necessarily to be inspired by a larger social purpose and has to sub serve

national priorities and objectives.”

There are 4383 bank branches in the state as on 31-12-2014, including nationalized banks, foreign banks, regional rural banks and private banks. On an average one bank branch is available for every (8) thousand population in the state. Their credit-deposit ratio is 94.01%.

An attempt is made to showcase the number of bank branches, including private, foreign, regional rural banks and their functioning in development of the state, including graph.

16. Prices

Generally price is the quantity of payment or compensation given by one party to another in return for goods or services, usually in units of some form of currency. Prices affect all sections of society as such price statistics are regarded as the most important economic data reflecting changes in the economy of a country. The prices influence both the quantum of production and

the pattern of consumption. However, changes in the prices of different commodities affect different sections of society differently. As such, it becomes necessary to compile different types of Price Statistics as each has its own importance and impact in the economy. There are different prices which have their impact on different sections of people and economy as a whole.

1. Retail Prices

Retail Price is the price at which the ultimate consumer pays for relatively small transactions. These prices are collected on daily and weekly basis from all Revenue Divisional headquarters with an objective to supply these retail prices regularly to the departments concerned have to

initiate suitable measures for achieving the desired stability in prices. Annual average retail prices of certain essential commodities in the state during the year 2013-14 are given in the following chart.

Wholesale Prices of Agricultural Commodities

The wholesale price is the cost of a goods sold by a wholesaler. The wholesaler will usually charge a price somewhat higher than he or she paid to the producer, and the retailer who purchases the goods from the wholesaler will increase the price again when they sell the good

in their store. Goods available on wholesale have a lower price than goods at retail do.

The monthly average whole prices of certain selected agricultural commodities during the year 2013-14 are shown in the chart given below.

Consumer Price Index Numbers for Industrial Workers (CPI-IW)

Consumer Price Index numbers is a comprehensive measure used for estimation of price changes in a basket of goods and services representative of consumption expenditure in an economy, over a period of time. It is one of the

most important statistics for an economy and is generally based on the weighted average of the prices of commodities. It gives an idea of the cost of living of people for which these index numbers are compiled.

Table	Content

17. Labour and Employment

It is felt that narrating the meaning of Labour, Employment and Wages is relevant to understand the contents contained in this chapter. Labour includes both physical and mental work undertaken for some monetary reward. In this way, workers working in factories, services of doctors, advocates, ministers, officers, teachers etc., are all included in labour. According to S.E. Thomas, "Labour connotes all human efforts of body or mind which are undertaken in the expectation of reward."

Any physical or mental work which is not undertaken for getting income, but simply to attain pleasure or happiness, is not labour.

Employment can be expressed in number of people working or in total working hours. A mixed measure is the number of hours divided by standard working hours to give a full-time

equivalence to jobs.

Wages are defined to include all remuneration in monetary terms and also payable more or less regularly in each pay period to workers as compensation for work done during the accounting year.

This chapter presents data in respect of category wise employment in Coal Mines, Registration and placements through Employment Exchanges and also particulars of Industrial disputes and man-days lost, employment in shops and commercial establishments etc.

There are, on an average 60678 number of daily workers deployed in coal mines of Singareni Collieries during 2014 and the colliery wise average number of workers employed are given in the following graph.

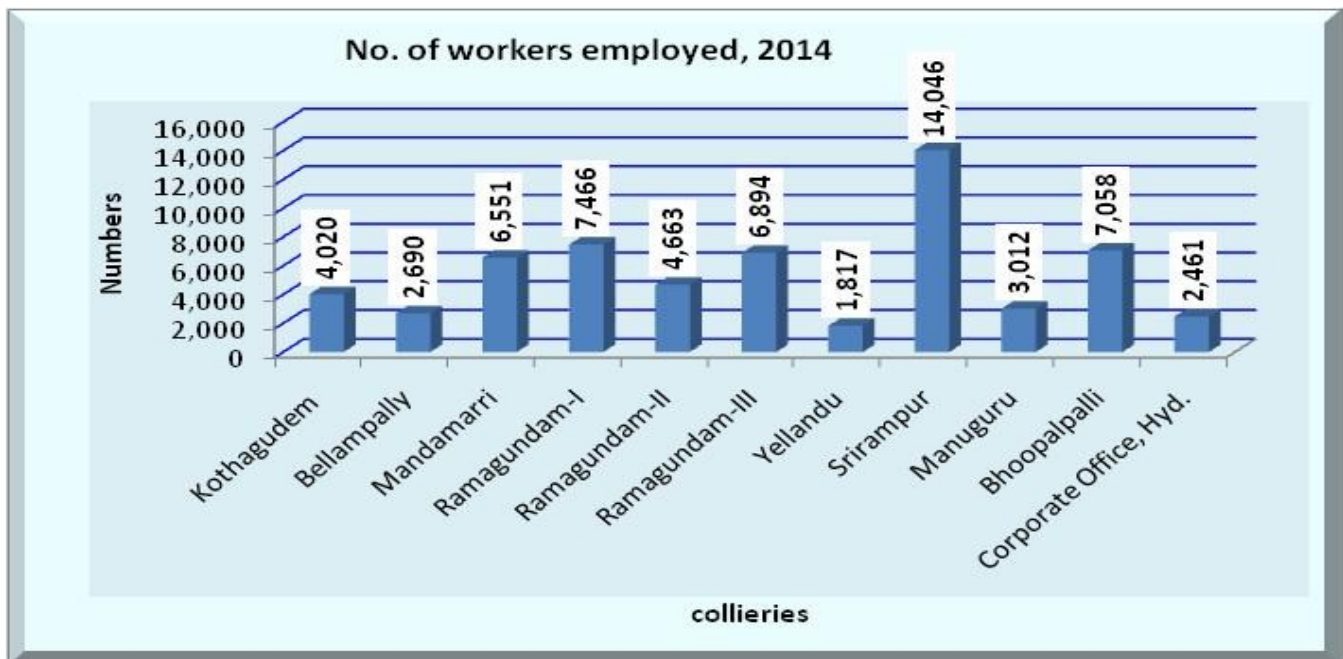

Table	Content
17.1	Average number of daily workers in Coal Mines, 2008 to 2014
17.2	Average number of daily workers employed in Coal Mines by Categories of Employment, 2013
17.3	Number of Applicants on the Live Register classified by Broad Divisions, 2013
17.4	Category wise Registrations, Notifications, Placements on Live Register as on 31.12.2013
17.5	Registrations and Placements through Employment Exchanges, 2013
17.6	Registrations and Placements by Employment Exchanges in respect of special categories of applicants, 2013
17.7	Employers using Exchanges, Vacancies Notified and Placements, 2008 to 2013
17.8	Industrial Disputes and mandays lost in major industries, 2008 to 2013
17.9	Occurrence of Industrial Accidents and Compensation paid by Industries, 2013
17.10	Employment in Shops and Commercial Establishments, 2013
17.11	Average Daily Earnings of Labour at different Coal Fields, 2009 to 2013

18. Social Security

Social Security is both a concept as well as a system. It represents basically a system of protection of individuals who are in need of such protection by the State as an agent of the society. Such protection is relevant in contingencies which are beyond the control of the individual members of the Society. State as an agent of the society has an important mandate to harmonize such differences through a protective cover to the poor, the weak, the deprived, the distraught and the disadvantaged. The concept of social security is now generally understood as meaning protection provided by the state to its citizens through a series of public measures against the economic and social distress that otherwise is caused by the stoppage or substantial reduction of earnings resulting from sickness, maternity, employment injury, occupational diseases, unemployment, invalidity, old age and death.

The Directive Principles of the constitution of

India direct that "the State shall strive to promote a social order in which justice, social, economic, and political, shall inform all the institutions of the national life" and, in particular, shall ensure "that the citizens, men and women equally, have the right to an adequate means of livelihood.

In this endeavor, the State Government has made promoting peoples' welfare as the central agenda. Accordingly, a number of initiatives have been taken in this direction. Some of the achievements made under various programmes such as distribution of Government land for Agricultural purposes, distribution of house sites to weaker sections, construction of houses for weaker sections, functioning of public distribution system, functioning of anganwadi centers, disbursement of social security pensions etc., during the year 2013-14 are exhibited in this chapter.

Table	Content
18.1	Distribution of Government Lands for Agriculture Purpose, 2013-14
18.2	Number of House Sites distributed to Weaker Sections, 2012-13 and 2013-14
18.3	Number of Houses completed under Weaker Section Housing Programme
18.4	Year wise Physical Status of Houses completed under Weaker Section Housing Programme.
18.5	Public Distribution System, 2013-14
18.6	Functioning of Rythu Bazars
18.7	Rural Water Supply Schemes and Individual Sanitary Latrines, 2013-14
18.8	Functioning of Self Help Groups and Bank Linkages, 2013-14
18.9	Workers and Wage Earnings under the Mahatma Gandhi National Rural Employment Guarantee Scheme, 2013-14
18.10	Disbursement (Physical) of Social Security Pensions by Area and Scheme, 2013-14
18.11	Functioning of Anganwadi Centres, 2013-14

19. Education

Education in its general sense is a form of learning in which the knowledge, skills, values, beliefs and habits of a group of people are transferred from one generation to the next through story telling, discussion, teaching, training, or research. Education may also include informal transmission of such information from one human being to another through a set of instructions in the process of making them educated about the society, surroundings, environment etc.

Telangana state has multiple institutes of higher education universities along with numerous primary and secondary schools. The

School Education

The Government of India with an objective to provide universal education to all of its citizens has enacted the Right of Children to Free and Compulsory Education Act, 2009 to provide for Free and Compulsory Education to all the children in the age group of 6 to 14 years, in the country. In order to achieve this objective, need exists for ensuring access to education, gender parity in school enrolment, overall enrolment and retention and the quality of education being imparted.

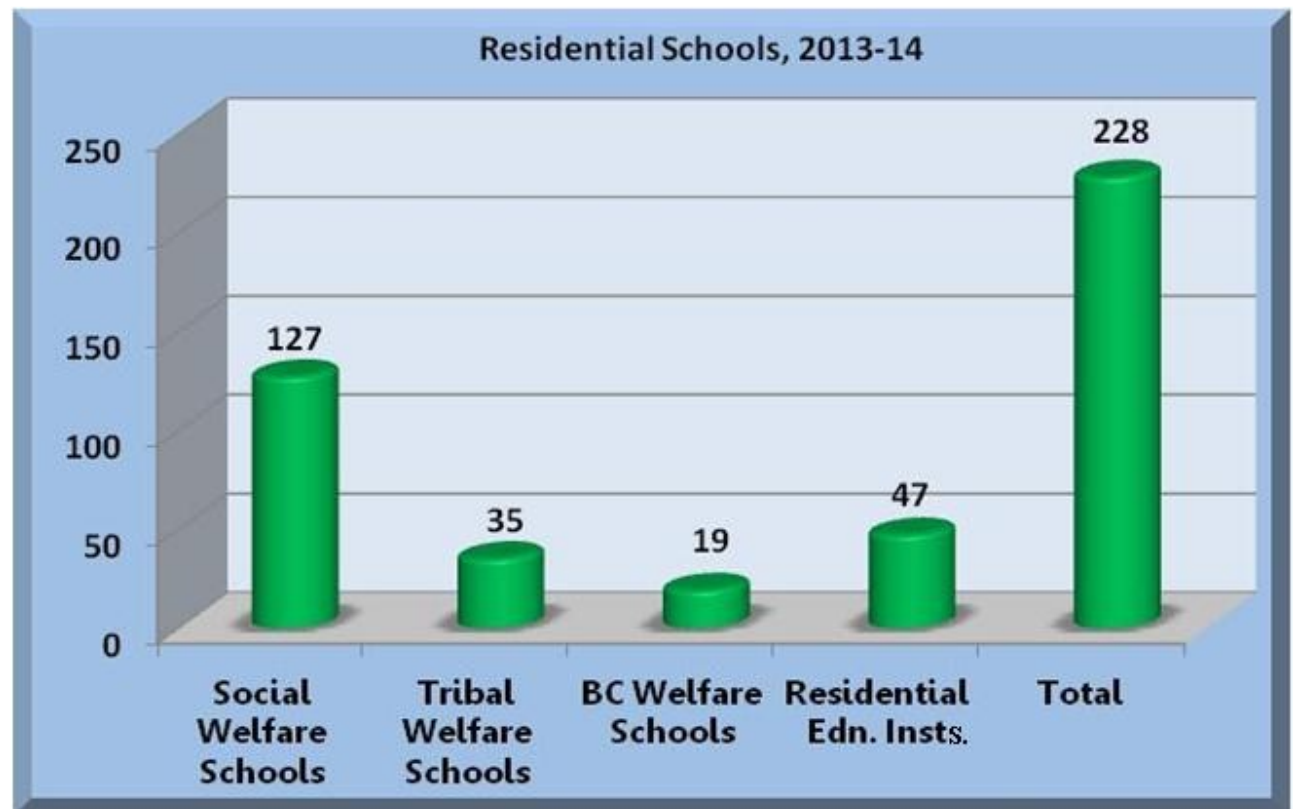

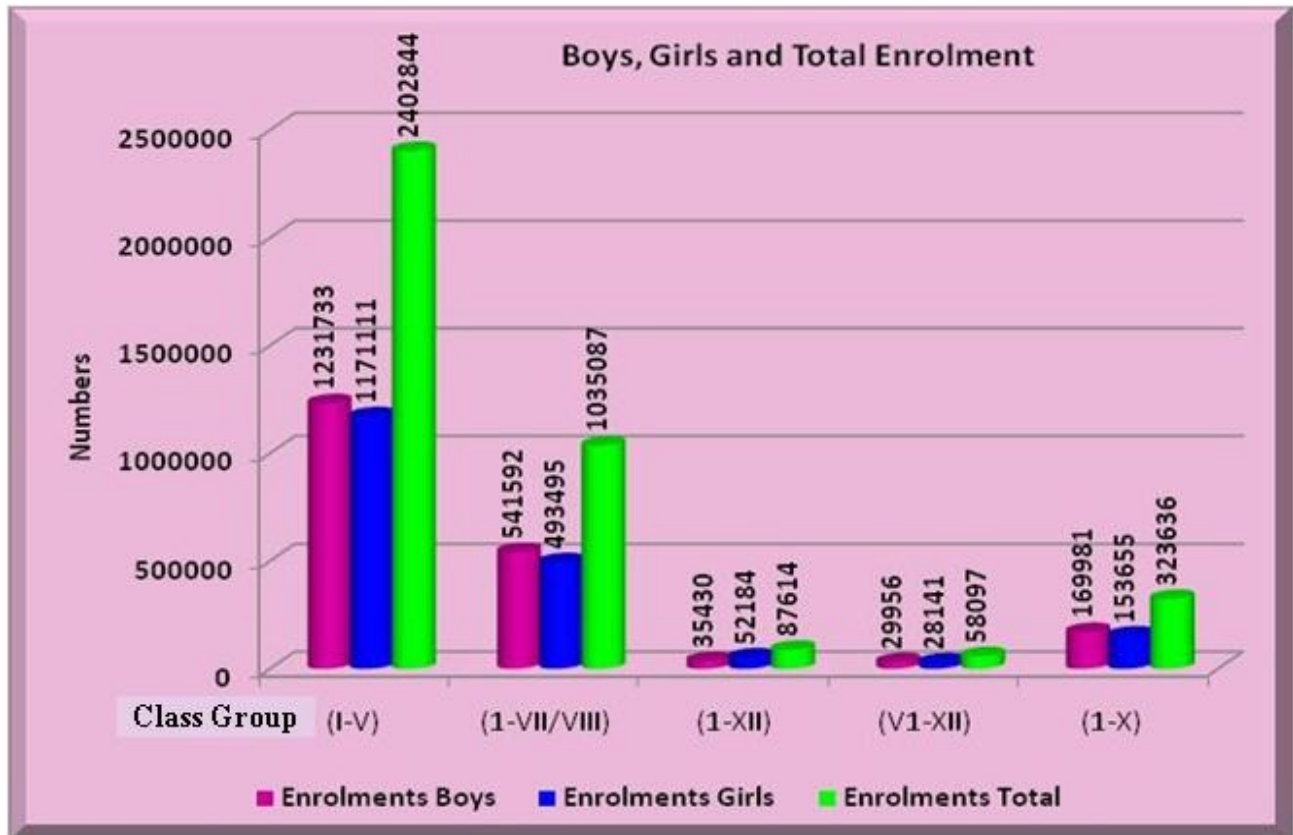

In the light of Right of Children to Free and Compulsory Education Act, 2009, the Government has taken various initiatives for universalization of elementary education like

state is home to a number of institutes, which impart higher education. The higher education includes many colleges, universities and research institutes providing professional education in the fields of arts, humanities, science, engineering, law, medicine, pharmacy, business, and veterinary sciences, with undergraduate and post-graduation. These institutions are producing lakhs of professional scholars, every year who in turn give direction to the state in transforming its objectives into reality. There is a saying that today's children are tomorrow's citizens and the future of the state would be as directed by them.

strengthening of existing schools, opening of new primary schools, and other type of educational facilities in remote and un-served habitations, in the State.

There are 43,293 schools functioning under various managements during 2013-14 in the State, imparting quality education to pupil. The students enrolled during the year are 61.78 lakh, consisting of 31.59 lakh boys and 30.19 girls. The teachers deployed are 2.35 lakh and the teacher-pupil ratio is 26. Category wise number of schools functioning, students enrolled and teachers employed are as shown in the chart given here under.

Junior Colleges

All put together, there are 3,007 Junior Colleges functioning during the year 2013-14 in the state. The number of students enrolled are

4,15,026 consisting of 2,09,939 boys and 2,05,087 girls and a total of 26,333 lecturers are imparting education in these colleges.

Degree Colleges

There are 171 Degree Colleges are functioning in the state with enrolment 1,47,564 students, consisting of 75,351 Men and 72,213 Women.

4,211 Lecturers are imparting education in these colleges.

Engineering Colleges

Engineering colleges are primarily established to produce engineers and technicians with technical knowledge and adequate skills with an objective to meet the technical skills requirements as per the needs of the industry.

There are about 350 engineering colleges in the State with a total intake of 1,71,679 students. Apart from engineering, there are 195 polytechnic colleges are functioning with strength of 45,250 students, during 2013-14.

Welfare Hostels

Government has been taking numerous welfare measures for importing quality education to all those children whose parents are not in a position to offer education to their children by establishing residential schools and hostels, in the state.

There are 801 hostels with strength of 69,093 students for scheduled castes; 214 hostels and 281 ashram schools with a strength of 1,26,559 students for scheduled tribes and 494 hostels with a strength of 46,005 students for backward classes are functioning in the state during 2013-14.

Apart from these institutions, several other institutions are functioning in the fields of arts, humanities, medical, pharmacy, business administration, computer applications and special schools for deaf and dumb, mentally challenged, blind etc., and importing quality education to the students in the light of achieving the universal education in the state.

An attempt is made in this chapter to provide information on the functions various educational institutions in the subsequent tables.

20. Economic Census

Economic Census is the process of complete enumeration of all the establishments or enterprises engaged in economic activity within the geographical boundaries of the country/state/district. Any activity resulting in production of goods and services that adds value to the national product is considered an economic

activity. Such activities included production of all goods and services for the market (i.e. for pay or profit) including those of government services, and, the production of primary commodities for own consumption and own account production of fixed assets

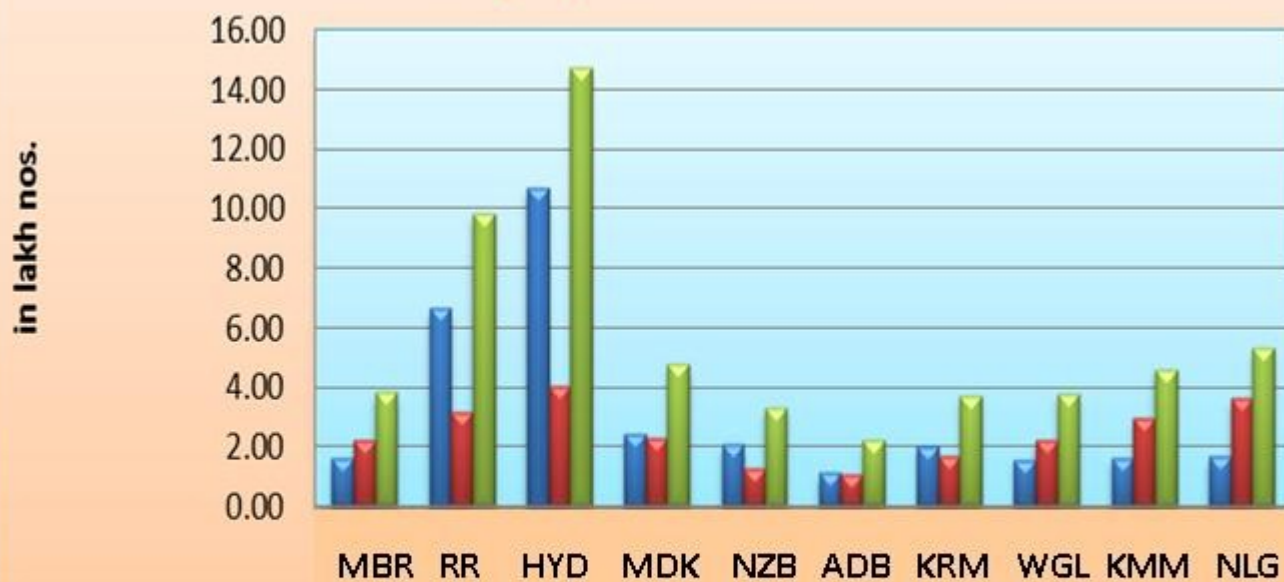

Enterprises as per 6th Economic Census

In this chapter, efforts are made to present, in brief, the total number of enterprises existing and number of persons working in the enterprises, district wise according to the

6th Economic Census conducted during 2013 along with comparison of some of the details with that of 5th Economic Census held during 2005, in the state.

Persons working as per 6th Economic Census

22. Local Bodies

Local Bodies are the institutions of Local Self Government and play a pivotal role in local governance and development. The Local bodies in state are broadly classified into two categories viz., Rural Local Bodies and Urban Local Bodies. The Local bodies constituted for local Planning, development and administration in rural areas are referred as Rural Local Bodies (Gram Panchayats, Mandal Praja Parishads and Zilla Praja Parishads) and those institutions constituted for local Planning, development and administration in Urban areas are referred as Urban Local Bodies (Municipal Corporations, Municipalities, Nagar Panchayats).

A Gram Panchayat is the Grass root level statutory institution of Rural Self Government in the **Panchayat** Raj system at the village or small town level, and has a **Sarpanch** as its elected head. The word Panchayat comes from Sanskrit *panch* meaning five. This is because such councils originally are consisted of five members. Gram Panchayat is the Grass root level statutory institution of Rural Self Government.

Mandal Praja Parishad is a local government body at the Mandal level in the state. The Mandal Praja Parishad is the link between the Gram Panchayat and the Zilla Praja Parishad. A Mandal Praja Parishad is

constituted for a revenue Mandal, as such, both the Mandal Praja Parishads and the revenue Mandals are coterminous comprising of group of villages.

Zilla Praja Parishad is a local government body at the district level in the state. It looks after the administration of the rural area of the district and its office is located at the district headquarters. The Hindi word Parishad means Council and Zilla Parishad translates to District Council

In India, a Nagar Palika or Municipality or **Nagar Nigam** is an urban local body that administers a city of population 100,000 or more. However, there are exceptions to that, as previously nagar palikas were constituted in urban centers with population over 20,000 so all the urban bodies which were previously classified as Nagar palika were reclassified as Nagar palika even if their population was under 100,000. Under the Panchayat Raj system, it interacts directly with the state government, though it is administratively part of the district it is located in. Generally, smaller district cities and bigger towns have a Nagar palika. Nagar palikas are also a form of local self-government, entrusted with some duties and responsibilities, as enshrined and guided upon by the Constitutional (74th Amendment) Act, 1992.

Municipal Corporations

Municipal Corporations are urban local government that works for the development of a city, which has a population of more than one million. The growing population and urbanization in various cities of India were in need of a local governing body that

can work for providing necessary community services like health care, educational institution, housing, transport etc. by collecting property tax and fixed grant from the State Government.

Major functions to be performed by the local bodies are i. providing public health, sanitation and drainage services; ii. Maintaining village roads, wells, tanks etc., and burial and cremation grounds; iii.

Building shelters for travelers; iv. Construction, repair & maintenance of public places and buildings for public use; v. Laying out new roads, footpaths and its maintenance etc.

Existing of Various Local Bodies

There are 8687 Gram Panchayats, 438 Mandal Praja Parishads, 25 Nagar Panchayats, 37 Municipalities and 6 Municipal Corporations, the local self governments,

are functioning in the state as on 31st March, 2015, the same are shown in the following graph.

The Local Bodies are getting grants from the central and state budgets apart from generating their own resources and utilize them in the process of discharging their legitimate functions as stated above. Efforts have been made in this

chapter to explain the Income and Expenditure of Greater Hyderabad Municipal Corporation, Municipalities, Zilla Praja Parishads, Mandal Praja Parishads and Gram Panchayats in the state.

Table	Content
22.1	Income of Greater Hyderabad Municipal Corporation (GHMC), 2011-12 and 2012-13
22.2	Expenditure of Greater Hyderabad Municipal Corporation (GHMC), 2011-12 and 2012-13

23. Judicial

The judiciary (also known as the judicial system) is the system of courts that interprets and applies the law in the name of the state. The judiciary also provides a mechanism for the resolution of disputes. Under the doctrine of the separation of powers, the judiciary generally does not make law (that is, in a plenary fashion, which is the responsibility of the legislature) or enforce law (which is the responsibility of the executive), but rather interprets law and applies it to the facts of each case. This branch of the state is often tasked with ensuring equal justice under law. It usually consists of a court of final appeal (called the "Supreme court" or "Constitutional court"), together with lower courts.

In many jurisdictions the judicial branch has the power to change laws through the process of judicial review. Courts with judicial review power may annul the laws and rules of the state when it finds them incompatible with a higher norm, such as primary legislation, the provisions

of the constitution or international law. Judges constitute a critical force for interpretation and implementation of a constitution, thus defacto in common law countries creating the body of constitutional law.

In 1980s, the Supreme Court of India for almost a decade had been encouraging public interest litigation on behalf of the poor and oppressed by using a very broad interpretation of several articles of the Indian Constitution.

The term "judiciary" is also used to refer collectively to the personnel, such as judges, magistrates and other adjudicators, who form the core of a judiciary, as well as the staffs who keep the system running smoothly.

Status of petitions in the state at the beginning of the year, institutions and disposals during the year and pending at the end of the year for 2013-14 are presented in the graph given hereunder.

Status of Petitions, 2013-14

■ Pending at the beginning (135773)	96,947	1,401	5,758	1,931	28,654	1,082
■ Institutions (67010)	41,261	1,225	3,047	1,483	19,400	594
■ Disposals (58912)	38,249	1,221	3,196	1,293	14,552	401
■ Pending at end of year (143871)	99,959	1,405	5,609	2,121	33,502	1,275

An attempt is made to explain the number of cases pending at the beginning of the year, institutions and disposals during the year and

pending at the end of the year for 2013-14 and working of judicial officials are presented in this chapter.

24. Police and Crime

Crime Statistics is an important and essential input for assessing quality of life and the human rights situation in the society. Crime Statistics broadly reflects the status of operations of Criminal Justice System in a Country. Crime Statistics includes data on offences, breaches of the law offenders, those who commit offences (victims), those who are offended against etc. In the state Crime statistics are generated on the basis of crime records maintained by different law enforcing agencies like the Police, the Judiciary at different level of administrative/

legal jurisdiction. These statistics are normally readily available and are generally used for assessing how crime is being dealt with by law enforcement agencies. However, these statistics being based on those cases which are generally reported to the law enforcement agencies and recorded through all stages of actions on the cases reported.

Incidence of major cognizable crimes (IPC) reported under different heads during the year 2013 in the state are presented in the graph given below

Apart from incidence of cognizable crimes, attempt has been made to present information on Police, Juvenile Statistics Category of Prisons, Lock-up report of the Prisons, Age-wise classification of Prisoners, Type of Offence and

Remand Period, Particulars of Education, Employment and Marital Status of Prisoners and production of Industrial, Agricultural and Dairy & Poultry production in Jails etc., in the subsequent tables

Table	Content

25. Tourism

It is evident that from nomadic existence to present day economies, people have always been on the move. Purpose may be anything, but people are moving on a pilgrimage, documenting history of locations, visiting relatives, visiting places for medical treatment, leisure or business, or those travelling distances, fired merely by the zest to travel, people have crisscrossed the globe integrating cultures and systems.

The tourism in the present day, has become increasingly significant and organized (industry) as more and more people with increased disposable income, higher propensity to spend and changing social mores trot cities and countries due to variety of reasons. Along with the evolution of tourism, its definition has also formalized over the years and in the present parlance a visitor is considered to be a traveler taking a trip to a main destination outside their usual environment, for less than a year, for any main purpose (business, leisure or other personal purpose) other than to be employed by a resident entity in the country or place visited.

A visitor (domestic, inbound or outbound) is classified as a tourist (or overnight visitor), if his/her trip includes an overnight stay, or as a

same-day visitor (or excursionist) otherwise. A traveler on the other hand is someone who moves between different geographic locations, for any purpose and any duration. The visitor is a particular type of traveller and consequently tourism is a subset of travel. However, "Tourism" refers to all activities of visitors, including both "tourists (over-night visitors)" and "same-day visitors".

In the context of Telangana, its culture combines cultural customs from Persian traditions embedded during Moghuls, Qutub Shahis and Nizams rule with prominent and predominantly south Indian traditions and customs. The State has a rich tradition in classical music. It has a rich painting and folk arts such as Burrakatha, shadow puppet show, and Perini Shiva Tandavam, Gusadi Dance, Kolatam etc. Telangana has a variety of tourist attractions including historical places, monuments, forts, waterfalls, forests and temples. Lakhs of tourists, including foreign tourists visit these tourist attractions every year and carrying their experiences, customs and traditions of Indian heritage, sweet memories to their native states or countries

Rural Tourism

Telangana has a tremendous potential for Rural Tourism and is a fascinating canvas of myriad colors, cultures and customs. Handicrafts

represent, perhaps, the oldest traditions of living culture and Telangana has some of the richest sources of handicrafts

Wildlife and Eco Tourism

Telangana has rich forests and wild life sanctuaries, which provide scope for eco-tourism and wildlife tourism that cover Alisagar Deer park in Nizamabad, the Eturunagaram Sanctuary and Pakhal Wildlife Sanctuary in Warangal, Kawal Wildlife Sanctuary, Jannaram, Pranahitha Wildlife Sanctuary and Sivaram Wildlife

Sanctuary in Adilabad, Mahavir Harina Vanasthali National Park, Vansthalipuram and Nehru Zoological park in Hyderabad, Manjira Bird Sanctuary in Sangareddy, and Pocharam Sanctuary in Medak, Shamirpet Deer Park in Rangareddy

Heritage Tourism

Telangana is a historic land dotted with a number of forts, which have a potential to be developed into classic heritage tourism sites. Some famous forts, where Tourism Department is taking up projects to develop amenities for tourists are Golconda Fort, Medak Fort, Khammam Fort, Nizamabad Fort, Elagandula Fort, Karimnagar and Bhongir Fort, Nalgonda. Warangal Fort and Golconda Fort also host Sound and Light shows which take us back to a magnificent past. More shows of this kind will

highlight the rich heritage of Telangana. Telangana State Tourism Development Corporation (TSTDC) organizes all the above tourist packages and also connects the neighboring States. TSTDC also maintains Haritha Hotel chains, wayside amenities, river cruises and water fleet in different locations. Any trip to Telangana State is incomplete without a taste of its cuisine, including the famous Hyderabad Biryani, Qubani-ka-Meetha, Haleem, Osmania Biscuits and Irani Chai.

Medical Tourism

Hyderabad has the potential to emerge as a global medical tourism hub, in view of the world class treatment at affordable prices offered in the leading hospitals located in the city. Steps are being taken to prepare a comprehensive

plan for this purpose and to conduct road shows abroad. An attempt is made in this chapter to present domestic and foreign tourists visited the state in the following graphs and subsequent data tables.

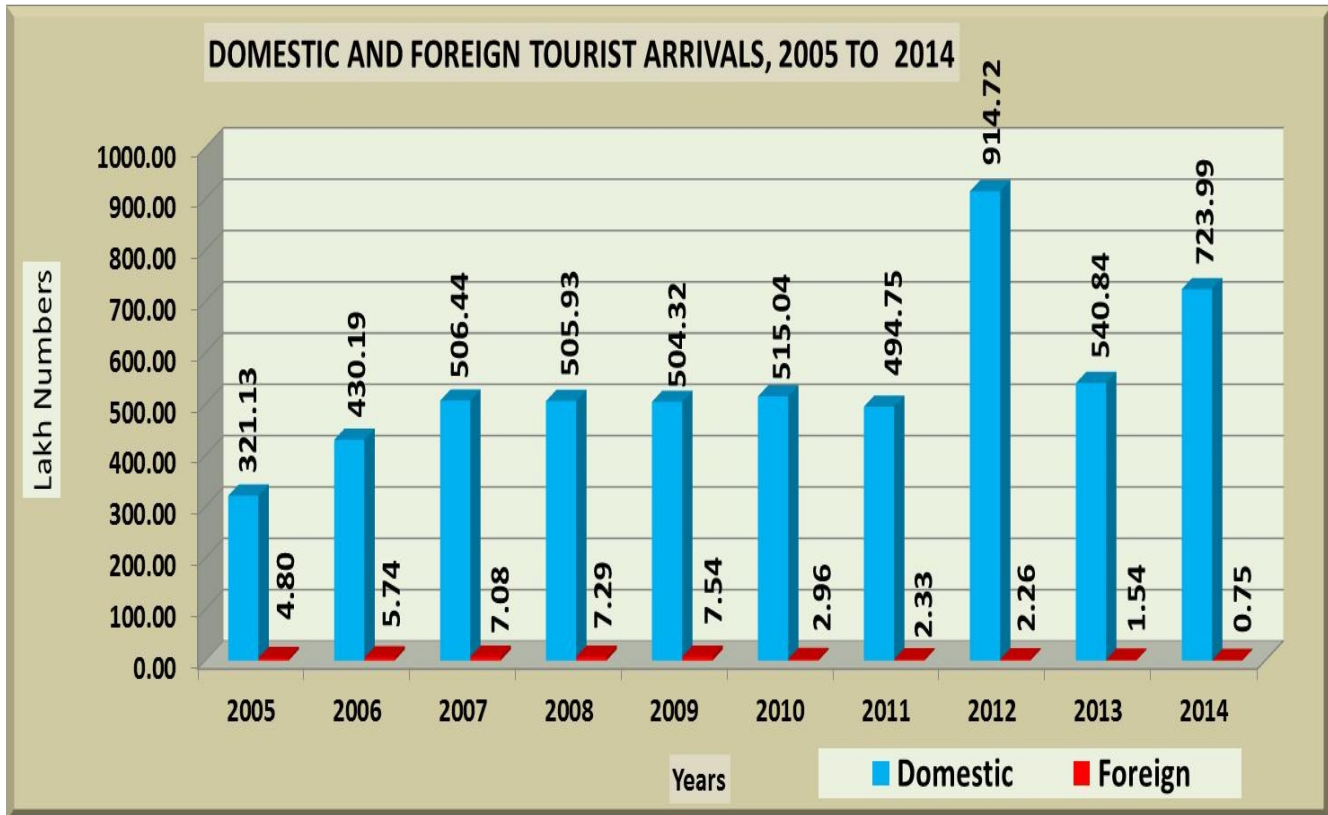

Table	Content
25.1	Number of Tourist Arrivals, 2005 to 2014
25.2	Number of Domestic and Foreign Tourist Arrivals, 2013 and 2014
25.3	Month wise Number of Domestic Tourists Arrivals, 2013
25.4	Month wise Number of Domestic Tourist Arrivals, 2014

27. Comparative Statistics of Telangana with All India

Efforts are made to present the Comparative Statistics of all the States with that of All India under various parameters viz., demographic characteristics according to population census, 2011, classification of workers, land utilization, area and out-turn of food grains, operational

holdings and operated area, livestock population according to livestock census, 2012, railway route length, working of factories, per capita income, details of economic census, functioning of bank branches, etc.

Table	Content
27.1	Comparison of Telangana State with All India Demographic Characteristics as per Census, 2011
27.2	Comparison of Telangana State with All India Population of Age Groups as per Census, 2011
27.3	Comparison of land utilization of Telangana State with All India, 2009-10 and 2010-11
27.4	Comparison of Area and Production of Principal Crops of Telangana State with All India, 2012-13
27.5	Comparison of Source wise Net Area Irrigated in Telangana State with All India 2010-11 and 2011-12
27.6	Comparison of Livestock Census, 2007 and 2012 of Telangana State with All India
27.7	Comparison of Mineral Production in Telangana State with All India, 2014
27.8	Comparison of working of Joint Stock Companies Limited by Shares at work, Telangana State with All India 2012 and 2013.
27.9	Comparison of Reporting Offices, Aggregate Deposit and Gross Bank Credit of Scheduled Commercial Banks (SCBs), 2014.

28. Important Statistics of All States

Efforts are made in this chapter to present important Statistics of all States and all India in the country. The statistics presented in this chapter include Geographical Area, Population, Land Utilization, Area and Out-turn of Food

grains, Livestock Census, Gross State Domestic Product and Gross Domestic Product etc. It is envisaged to have comparison of States with that of all India on each of the parameters presented in this chapter.

Table	Content
28.1	State wise Area, Households, Population and Sex Ratio, 2011 Census
28.2	State wise Male and Female Population by Residence, 2011 Census
28.3	Particulars of (0-6) Years Population, Literates and Literacy Rate, 2011 Census
28.4	Scheduled Castes and Scheduled Tribes Population, 2011 Census
28.5	Main and Marginal Workers, 2011 Census
28.6	Classification of Main Workers, 2011 Census
28.7	Classification of Marginal Workers, 2011 Census
28.8	Pattern of Land Utilization, 2010-11
28.9	Area and Out-turn of Food grains, 2012-13
28.10	Source wise Gross Area Irrigated, 2011-12

Source: For Sl. No. 1-36 -- Directorate of Economics & Statistics of respective State Governments, and for All-India -- CSO

#: Estimates relate to bifurcated Andhra Pradesh; estimates for Telangana are given at Serial No. 25

Totals may not tally due to rounding off.

State-wise estimates are being released with base year 2004-05 and hence estimates for All-India with base year 2011-12 are not being mentioned in this statement

Estimates at all India level for 2014-15 are available only at base year 2011-12.

29. Important Statistics of All India

This chapter contains important Statistics at all India under various parameters like land utilization, area and out-turn of principal crops, electricity generated, index of industrial

production, mineral production, consumer price index numbers for working class, gross domestic product, per capita income, etc.

Table	Content
29.1	Land Utilization, 2007-08 to 2010-11
29.2	Area, Production and Yield of Principal Crops, 2011-12 and 2012-13
29.3	Livestock Census 2007 and 2012 (Provisional)
29.4	Electricity Generated and Sold, 2009-10 to 2012-13
29.5	Index of Industrial Production from 2006-07 to 2013-14 (2 Digit Level)
29.6	Mineral Production in 2012-13 and 2013-14
29.7	Factory Employment by Industry Groups, 2011 and 2013
29.8	Average Per Capita Annual Earnings of Factory Labour in Manufacturing Industries, NIC-2008, for the years, 2010 and 2011 covered under the Payment of Wages Act, 1936
29.9	Performance of Employment Exchanges for the years 2000 to 2012
29.10	Working of Joint Stock Companies Limited by Shares, 2001 to 2013
29.11	Gross Domestic Product of All India at Current Prices, 2004-05 to 2012-13
29.12	Gross Domestic Product of All India at Constant (2004-05) Prices 2004-05 to 2012-13
29.13	Net National Income at Factor Cost at Current and Constant (2004-05) Prices, 2004-05 to 2013-14
29.14	Index Numbers of Wholesale Prices by Major Groups and Sub Groups, 2011-12 to 2013-14
29.15	Gross Value Added at Factor Cost by Economic Activity at Current Prices, 2011-12 to 2014-15
29.16	Growth Rates of Gross Value Added at Factor Cost by Economic Activity at Current Prices, 2012-13 to 2014-15
29.17	Gross Value Added at Factor Cost by Economic Activity at Constant (2011-12) Prices
29.18	Growth Rates of Gross Value Added at Factor Cost by Economic Activity at Constant (2011-12) Prices
29.19	Industry wise Percentage Share of Gross Value Added at Factor Cost by Economic Activity at Current Prices, 2011-12 to 2014-15
29.20	Net State Domestic Product (NSDP) and Per Capita Income of Telangana State and All India at Current and Constant Prices
29.21	Consumer Price Index Numbers for Industrial Workers, Month wise, 2011 to 2014
29.22	Consumer Price Index Numbers for Industrial Workers (General Index), 2007 to 2013

TABLE -29.1
LAND UTILISATION, 2007-08 TO 2010-11

(in Lakh hectares)

Sl. No.	Particulars	2007-08	2008-09	2009-10	2010-11
1	2	3	4	5	6
I.	Geographical Area	3,287.26	3,287.26	3,287.26	3,287.26
	Reporting Area for Land Utilization Statistic (1 to 5)	3,056.85	3,055.86	3,056.11	3,059.03
	1. Forests	696.25	700.34	700.42	700.06
	2. Not Available for Cultivation	431.92	428.62	429.54	435.64
	3. Other Uncultivated Land excluding Fallow lands (a + b + c)	268.52	265.07	263.56	261.65
	Permanent pastures and other grazing lands	103.63	101.77	101.49	103.01
II.	Land under Miscellaneous Tree Crops and Groves(not included in Net Area Sown)	34.23	33.56	33.51	32.07
	(c) Culturable Waste	130.66	127.52	128.57	126.57
	4. Fallow Lands (a + b)	251.12	248.57	262.36	245.89
	(a) Fallow Lands other than Current Fallows	103.53	102.86	104.84	103.21
	(b) Current Fallows	147.59	141.91	157.53	142.67
	5. Net Area Sown	1,409.04	1,419.29	1,400.22	1,415.79
	6. Area Sown More than once	542.52	534.28	521.75	573.90
	7. Total Cropped Area	1,951.56	1,953.57	1,921.97	1,989.69
	8. Cropping intensity*	138.50	137.64	137.26	140.54
III.	Net Irrigated Area	630.99	637.40	632.56	636.01
IV.	Gross Irrigated Area	872.59	888.67	864.23	893.60

*: Cropping intensity is Percentage of the Gross Cropped area to the net area sown.
