# STATISTICAL YEAR BOOK RAJASTHAN 2019

Directorate of Economics & Statistics  
Statistics Department, Rajasthan, Jaipur

Chief Minister  
Rajasthan

## MESSAGE

In today's era, Statistics is the core of developmental Planning. Without statistics, we cannot plan and formulate the development in any sector. The Directorate of Economics and Statistics brings out an annual publication, "Statistical Year Book", providing latest data. It caters to the need of planning agencies, policy makers and researchers.

I am glad that this publication is also available in the form of a mobile app, which is a need in the present technology-driven time. This will definitely facilitate quick access to data and effective planning.

I am sure that this publication will be useful to all those who have an interest in the socio economic development of the state.

**(ASHOK GEHLOT)**

Deputy Chief Minister  
Statistics Department  
Government of Rajasthan

## FOREWORD

The Directorate of Economics and Statistics, Rajasthan brings out annual publication of “Statistical Year Book, Rajasthan”. In continuation of the series, the present publication of Statistical Year Book, Rajasthan, 2019 reveals State, district and inter-state Socio- Economic sectors data for the year 2018-19 or latest. Being the nodal agency for all the Statistical activities in Rajasthan, Directorate brings out time series data on several parameters collected from various departments and agencies in this publication.

I am confident that this publication would be useful to planners, policy makers, researchers and academicians to recognize the impact of policy interventions.

Jaipur  
June, 2020

  
(SACHIN PILOT)

Chief Secretary  
Government of Rajasthan

## PREFACE

Statistics has always had a vital role in socio economic policy planning and development management.

This publication "Statistical Year Book" is being brought out by the Directorate of Economics and Statistics, Department of Statistics, Rajasthan with the aim of placing in the public domain, updated socio economic data.

I am glad to know that this book is also available in the form of mobile app, which indicates the use of latest technology in dissemination of data in each and every hand.

I hope that this publication will be of immense use for the Administrators, planners, policy makers and all stake holders who are interested in Rajasthan's Development Journey.

Best Wishes Always.

Jaipur  
June, 2020

(D. B. GUPTA)

Principal Secretary  
Planning & Statistics Department  
Government of Rajasthan

## ACKNOWLEDGEMENT

The Directorate of Economics & Statistics publishes an annual publication "Statistical Year Book of Rajasthan" by providing latest available data keeping in view the needs of various stakeholders.

In the current issue, information on a minimum set of socio-economic indicators has been incorporated in the publication so as to accelerate existing efforts generate inter-state comparable socio-economic indicators on health, education, demography and finance.

I hope the publication would be extremely useful to planners, policy makers, research workers and academicians. Suggestions for further improvement of the publication are welcome and will be highly appreciated.

Jaipur  
June, 2020

  
(ABHAY KUMAR)

Director & Joint Secretary  
Directorate of Economics & Statistics  
Government of Rajasthan

## INTRODUCTION

The present publication of “Statistical Year Book Rajasthan” is the 39<sup>th</sup> issue in this series. This publication consists of latest available data duly collected annually from various offices.

It contains information of Socio-Economic Statistics and Population characteristics of the State viz. density, religion, education, employment etc. Inter-State & Inter-District table on various parameters have also been incorporated in the publication. The response to this publication from the administrators, research workers and other users has been very encouraging. Efforts are being made continuously to include more Statistical Information in this publication to make it more useful tool for the users. Now this publication is also available on **Mobile App** for easy access of data.

I take this opportunity to thanks the team of officers/officials associated with this publication and also appreciate the efforts and cooperation extended by the State Government Offices, Corporations and other Organizations for providing the required data in time.

We look forward, comments and suggestions for improving the quality and coverage of information presented in this publication.

**1.40 DECADAL VARIATION IN POPULATION  
INDIA AND RAJASTHAN ( 1901 - 2011 )**

Census Year	Population (in numbers)		Percentage Decadal Growth	
	India	Rajasthan	India	Rajasthan
1	2	3	4	5
1901	238396327	10294090	-	-
1911	252093390	10983509	5.75	6.70
1921	251321213	10292648	-0.31	-6.29
1931	278977238	11747974	11.00	14.14
1941	318660580	13863859	14.22	18.01
1951	361088090	15970774	13.31	15.20
1961	439234771	20155602	21.64	26.20
1971	548159652	25765806	24.80	27.83
1981	683329097	34261862	24.66	32.97
1991	846421039	44005990	23.87	28.44
2001	1028610328	56507188	21.52	28.41
2011	1210854977	68548437	17.70	21.30

**Notes**

- 1 In working out 'Decadal Growth' and percentage Decadal Growth' for India 1941-51 and 1951-61 the population of Tuensang district for 1951 (7025) and the population of Tuensang (83501) and Mon (5774) districts for 1961 Census of Nagaland state have not been taken into account as the areas were censused for the first time in 1951 and the same are not comparable.
- 2 The 1981 Census could not be held owing to disturbed conditions prevailing in Assam. Hence the population figures for 1981 Census of Assam have been worked out by 'interpolation.
- 3 The 1991 Census could not be held owing to disturbed conditions prevailing in Jammu and Kashmir. Hence the population figures for 1991 Census of Jammu and Kashmir have been worked out by 'interpolation.

# STATISTICAL YEAR BOOK OF RAJASTHAN 2019

## 1.41 LITERACY RATE - INDIA (1951 - 2011)

Census Year	Persons	Males	Females	Gender gap in Literacy Rate
1	2	3	4	5
1951	18.33	27.16	8.86	18.30
1961	28.30	40.40	15.35	25.05
1971	34.45	45.96	21.97	23.99
1981	43.57	56.38	29.76	26.62
1991	52.21	64.13	39.29	24.84
2001	64.83	75.26	53.67	21.59
2011	73.00	80.90	64.60	16.30

1 Literacy rate for 1951, 1961 & 1971 census relate to population aged five years and above. The rates for the years 1981, 1991 2001& 2011 census relate to the population aged seven years and above.

2 The 1981 Literacy rates exclude Assam where the 1981 census could not be conducted. The 1991 census Literacy rates exclude Jammu & Kashmir.

# STATISTICAL YEAR BOOK OF RAJASTHAN 2019

## 1.42 LITERACY RATE - RAJASTHAN (1951 - 2011)

Census Year	Persons	Males	Females	Gender gap in Literacy Rate
1	2	3	4	5
1951	8.50	13.88	2.66	11.22
1961	18.12	28.08	7.01	21.07
1971	22.57	33.87	10.06	23.81
1981	30.11	44.77	14.00	30.77
1991	38.55	54.99	20.44	34.55
2001	60.41	75.70	43.85	31.85
2011	66.10	79.20	52.10	27.10

Note:- Literacy rate for 1951, 1961 & 1971 census relate to population aged five years and above. The rates for the years 1981, 1991 2001& 2011 census relate to the population aged seven years and above.

## 29. POLLUTION 29.1 BRIEF REPORT ON AMBIENT AIR QUALITY STATUS, RAJASTHAN.-2018 National Ambient Air Standards

S.No	Pollutants	Average Time-weights	Concentration in		Method Of Measurement
			Industrial, Residential,Rural&Other Areas	Ecologically Sensitive Ares(Notified By Central Govt.)	
1	PM10	Annual Average 24 Hours	60 µg/m <sup>3</sup> 100 µg/m <sup>3</sup>	60 µg/m <sup>3</sup> 100 µg/m <sup>3</sup>	Beta Attenuation Gravimetri TOEM
3	PM2.5	Annual Average 24 Hours	40 µg/m <sup>3</sup> 60 µg/m <sup>3</sup>	40 µg/m <sup>3</sup> 60 µg/m <sup>3</sup>	Beta Attenuation Gravimetri TOEM
5	Carbon Monoxide(MO)	8 Hours 1 Hours	2.0 mg/m <sup>3</sup> 4.0 mg/m <sup>3</sup>	2.0 mg/m <sup>3</sup> 4.0 mg/m <sup>3</sup>	Non Dispersive Infra Red (NDIR) Spectroscopy
7	Sulfur Dioxide(SO <sub>2</sub> )	Annual Average 24 Hours	50 µg/m <sup>3</sup> 80 µg/m <sup>3</sup>	20 µg/m <sup>3</sup> 80 µg/m <sup>3</sup>	improved West And Garke Method Ultraviolet Fluorescence
9	Nitrogen Dioxide(NO <sub>2</sub> )	Annual Average 24 Hours	40 µg/m <sup>3</sup> 80 µg/m <sup>3</sup>	30 µg/m <sup>3</sup> 80 µg/m <sup>3</sup>	Jacob &Hochheiser Medified (NaOH-NaAsO <sub>2</sub> )Method Gas Phase Chemiluminescence
11	Ammonia(NH <sub>3</sub> )	Annual Average 24 Hours	100 µg/m <sup>3</sup> 400 µg/m <sup>3</sup>	100 µg/m <sup>3</sup> 400 µg/m <sup>3</sup>	Chemiluminescence Indophenol blue Method
13	Ozone(O <sub>3</sub> )	8Hr. Average 1 Hours	100 µg/m <sup>3</sup> 180 µg/m <sup>3</sup>	100 µg/m <sup>3</sup> 180 µg/m <sup>3</sup>	UV photometric Chemiluminescence Chemical Method
15	Benzene(C <sub>6</sub> H <sub>6</sub> )	Annual Average 24 Hours	05 µg/m <sup>3</sup>	05 µg/m <sup>3</sup>	Gas Chromatography Based Continuous Analyzer- Adsorption And Description Followed By GC Analysis

Annual Arithmetic mean of minimum 104 Measurements in a year taken twice a week 24 hourly at uniform interval.

**EXPLANATORY NOTES**

**Population**

**Sex Ratio**

Sex ratio has been defined as the number of females per 1000 males in the population; it is expressed as 'number of females per 1000 males'

$$\text{Sex Ratio} = \frac{\text{Number of females}}{\text{Number of Males}} \times 1000$$

**Child Sex Ratio (0-6 Years)**

Child Sex-ratio (0-6 Years) has been defined as the number of females in age-group 0-6 years per 1,000 males in the same age-group in the population. It is expressed as 'number of female children aged (0-6) years per 1,000 male children aged (0-6) years'.

$$\text{Child Sex Ratio (0-6 Years)} = \frac{\text{Number of Females Children (0-6 Years)}}{\text{Number of Males Children (0-6 Years)}} \times 1000$$

**Effective Literacy Rate**

Effective literacy rate is defined as the percentage of literates to population aged 7 years and above

$$\text{Effective literacy rate} = \frac{\text{Number of Literates}}{\text{Population age 7+}} \times 100$$

**Work Participation Rate**

Work participation rate is defined as the percentage of total workers (main and marginal) to total population.

$$\text{Work participation rate} = \frac{\text{Total Workers (Main +Marginal)}}{\text{Total Population}} \times 100$$

**Work**

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons (irrespective of age and sex) who participated in any economically productive activity for any length of time during the reference period are defined as workers. Normally, production for self-consumption is not treated as economic activity. However, for the purpose of census an exception has been made in the case of persons who are engaged in growing of crops (except plantation crops), rearing of animals and milk production for self-consumption. These categories have been treated as economic activity. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

**Main Workers**

Workers who worked for more than 6 months (180 days) in the reference period are termed as Main Workers.

### **Marginal Workers**

Workers who worked for less than six months (180 days) in the reference period are termed as Marginal Workers. Marginal workers are further bifurcated into two categories i.e. those who worked for 3 months or more but less than 6 months and those who worked for less than 3 months.

### **Non Workers**

A person who did not work at all in any economically productive activity during the last one year preceding the date of enumeration was treated as non worker. This category includes students, persons engaged in household duties, dependents, pensioners, beggars, etc. provided they were not engaged in any economically productive activity during the last one year preceding the date of enumeration

### **Cultivators**

For purpose of the Census, a person is classified as cultivator if he or she is engaged in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation. A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivate on land, is not treated as cultivator.

### **Agricultural Labourers**

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She or he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

### **Household Industry Workers**

Household Industry is defined as an industry conducted by one or more members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in the household industry consists of members of the household. The industry is not run on the scale of a registered factory where more than 10 persons with power or 20 persons without power is in use as it would qualify or has to be registered under the Indian Factories Act.

The main criterion of a Household industry even in urban areas is the participation of one or more members of a household. Even if the industry is not actually located at home in rural areas there is a greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas, where organized industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live.

### **Other Workers**

Workers other than cultivators, agricultural labourers or workers in Household Industry, as defined above are termed as 'Other Workers' (OW). Examples of such type of workers are government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc.

## EXPLANATORY NOTES

### Health

#### Birth Rate

The number of live births per 1000 estimated midyear population, in a given year.

$$\text{Crude Birth Rate (CBR)} = \frac{\text{Number of live births during the year}}{\text{Mid-year population}} \times 1000$$

#### Death Rate

The number of deaths per 1000 estimated mid-year population in one year, in a given place.

$$\text{Crude Death Rate (CDR)} = \frac{\text{Number of deaths during the year}}{\text{Mid-year population}} \times 1000$$

#### Infant Mortality Rate (IMR)

Infant mortality rate is defined as the number of infant deaths in a year per 1,000 live births during the year.

$$\text{Infant Mortality Rate (IMR)} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

#### Total Fertility Rate

Total Fertility rate is defined as the number of children which a woman of hypothetical cohort would bear during her life time if she were to bear children throughout her life at the rates specified by the age specific fertility rate for the particular year if none of them dies before crossing the age of reproduction. TFR is computed as the sum of the age specific fertility rates of women by single years of age from 15-44 (or 15-49) and is expressed 'per woman' i.e, the sum is divided by 1000.

$$\text{Total Fertility Rate (TFR)} = \frac{5 \times \sum_{15-19}^{45-49} \text{ASFR for female live-births}}{1000}$$

#### Maternal Mortality Ratio

Annual number of maternal deaths per 100,000 live births. A maternal death is the death of a woman while pregnant or within 42 days of termination of pregnancy, from any cause related to or aggravated by the pregnancy or its management, but not from accidental or incidental causes.

$$\text{Maternal Mortality Ratio (MMR)} = \frac{\text{Number of maternal deaths to women (15-49 years)}}{\text{Number of live births to women (15-49 years)}} \times 100000$$

### **Fundamental Principles of Official Statistics**

---

**Principle 1.** Official statistics provide an indispensable element in the information system of a democratic society, serving the Government, the economy and the public with data about the economic, demographic, social and environmental situation. To this end, official statistics that meet the test of practical utility are to be compiled and made available on an impartial basis by official statistical agencies to honor citizens' entitlement to public information.

**Principle 2.** To retain trust in official statistics, the statistical agencies need to decide according to strictly professional considerations, including scientific principles and professional ethics, on the methods and procedures for the collection, processing, storage and presentation of statistical data.

**Principle 3.** To facilitate a correct interpretation of the data, the statistical agencies are to present information according to scientific standards on the sources, methods and procedures of the statistics.

**Principle 4.** The statistical agencies are entitled to comment on erroneous interpretation and misuse of statistics.

**Principle 5.** Data for statistical purposes may be drawn from all types of sources, be they statistical surveys or administrative records. Statistical agencies are to choose the source with regard to quality, timeliness, costs and the burden on Respondents.

**Principle 6.** Individual data collected by statistical agencies for statistical compilation, whether they refer to natural or legal persons, are to be strictly confidential and used exclusively for statistical purposes.

**Principle 7.** The laws, regulations and measures under which the statistical systems operate are to be made public.

**Principle 8.** Coordination among statistical agencies within countries is essential to achieve consistency and efficiency in the statistical system.

**Principle 9.** The use by statistical agencies in each country of international concepts, classifications and methods promotes the consistency and efficiency of statistical systems at all official levels.

**Principle 10.** Bilateral and multilateral cooperation in statistics contributes to the improvement of systems of official statistics in all countries.
