## 20<sup>th</sup> Livestock Census

---

### Introduction

The Department of Animal Husbandry & Dairying under Ministry of Fisheries, Animal Husbandry & Dairying attributes critical importance to livestock and to the collection and availability of up-to-date and accurate data related to livestock, as they are the vital component of rural economy. For proper

planning and formulation of any programme meant for bringing further improvement in this sector and its effective implementation and monitoring, valid data are required at every decision making stage.

The Livestock Census is the main source of such data in the country. The livestock census is conducted across the country periodically since 1919. The census usually covers all domesticated animals and head counts of these animals are taken. So far, 19 Livestock Censuses were conducted in participation with State

Governments and UT Administrations. The 20<sup>th</sup> Livestock Census was launched during the month of October, 2018. The enumeration was done in both rural and urban areas. Various species of animals (cattle, buffalo, mithun, yak, sheep, goat, pig, horse, pony, mule, donkey, camel, dog, rabbit and elephant)/poultry birds (fowl, duck and other poultry birds) possessed by the households, household enterprises/non-household enterprises were counted at that site. Another important feature of 20<sup>th</sup> Livestock Census is it has been designed to capture Breed-wise number of animals and poultry birds.

For the first time, livestock data were collected on line in 20<sup>th</sup> Livestock Census. Advance technology has been adopted to collect data through tablet computers. The National Informatics Centre, Ministry of Electronics & IT

has developed Android based mobile application for data collection with various features such as data entry module to facilitate recording the data on tablets, web-based work application, local government directory codes etc. The data captured by the enumerators have been verified through proper data checking process carried out by the supervisors through web-based programmes. Besides the initial scrutiny, another level of validation of data was also carried out with the help of a separate web-based data validation programme in which supervisors were allowed to correct any wrong entry.

The Animal Husbandry Departments of States/UTs have been entrusted to conduct the field operations. In the 20<sup>th</sup> Livestock Census, the data were collected and scrutinised mostly by para-veterinarians and veterinarians. In this whole Census operations more than 80,000 field staff were deployed for smooth conduct of 20<sup>th</sup> Livestock Census. Training was an important component for 20<sup>th</sup> Livestock Census as for the first time field staff were required to operate tablet computers for such massive census operations. Training was conducted at various levels starting from “All India Training Workshop for Trainers” at Delhi, followed by State, District level trainings. Apart from training, Training Manual, Tutorial video, online e-learning classes etc. have been arranged.

The 20<sup>th</sup> Livestock Census was carried out in about **6.6 lakhs villages and 89 thousand urban wards** across the country covering more than **27 Crores of Households and Non-Households**.

## Key Results

The present report provides certain key results of 20<sup>th</sup> Livestock Census. It consists of All India total population of major livestock species. The report also contains State level data of various

parameters along with distribution of livestock species according to their age, sex, usages etc. For the purpose of assessing the total count of livestock, the species namely, cattle, buffalo, mithun, yak, sheep, goat, pig, horse, pony, mule, donkey, camel were considered. Besides livestock, the various category of poultry birds possessed by each households and poultry farms were also counted on the spot in 20<sup>th</sup> Livestock Census.

The report contains State-wise details of both livestock and poultry. Since Census operations in Delhi has not been completed, the figures in respect of Delhi is that of previous Census. The present report reflects the aggregate counts of various species combined for both rural and urban areas. It also contains comparative picture of livestock population with previous Census as well.

Some of the key outcomes of the 20<sup>th</sup> Livestock Census is summarised below:

📈 **Total Livestock population**  
53.6 Crore- increase of 4.6% over Livestock Census-2012

📈 **Bovine population (Cattle, Buffalo, Mithun and Yak)**  
30.3 Crore- increase of 1.0% over the previous census (2012)

📈 **Cow population**  
14.5 Crores, increased by 18.0% over the previous census (2012).

📈 **Sheep population**  
7.4 Crores increase of 14.1% over previous Census (2012).

📈 **Goat population**  
15 Crores increase of 10.1% over the previous census (2012)

📈 **Poultry population**  
85.2 Crores increased by 16.8% over previous Census (2012),

❖ The total Livestock population is **535.78** million in the country showing an increase of **4.6%** over Livestock Census-2012

❖ Total Bovine population (Cattle, Buffalo, Mithun and Yak) is **302.79 Million** in 2019 which shows an increase of **1.0%** over the previous census.

❖ The total number of cattle in the country is **192.49 million** in 2019 showing an increase of **0.8 %** over previous Census.

❖ The Female Cattle (Cows population) is **145.12 million**, increased by **18.0%** over the previous census (2012).

❖ The Exotic/Crossbred and Indigenous/Non-descript Cattle population in the country is **50.42 million** and **142.11 million** respectively.

❖ The Indigenous/Non-descript female cattle population has increased by **10%** in 2019 as compared to previous census.

- ❖ The total milch animals (in-milk and dry) in cows and buffaloes is **125.34 Million**, an increase of **6.0 %** over the previous census.
- ❖ The total sheep in the country is **74.26 Million** in 2019, increased by **14.1%** over previous Census.
- ❖ The Goat population in the country in 2019 is **148.88 Million** showing an increase of **10.1%** over the previous census.
- ❖ The total Pigs in the country is **9.06 Million** in the current Census, declined by **12.03%** over the previous Census.
- ❖ The total Mithun in the country is **3.9 Lakhs** in 2019, increased by **30.0%** over previous Census.
- ❖ The total Yak in the country is **Fifty Eight Thousand** in 2019, decreased by **24.67%** over previous Census.
- ❖ The total Horses and Ponies in the country is **3.4 Lakhs** in 2019, decreased by **45.6%** over previous Census.
- ❖ The total population of Mules in the country is **Eighty Four Thousand** in 2019, decreased by **57.1%** over previous Census.
- ❖ The total population of Donkeys in the country is **1.2 Lakhs** in 2019, decreased by **61.23%** over previous Census.
- ❖ The total Camel population in the country is **2.5 Lakhs** in 2019, decreased by **37.1%** over previous Census.

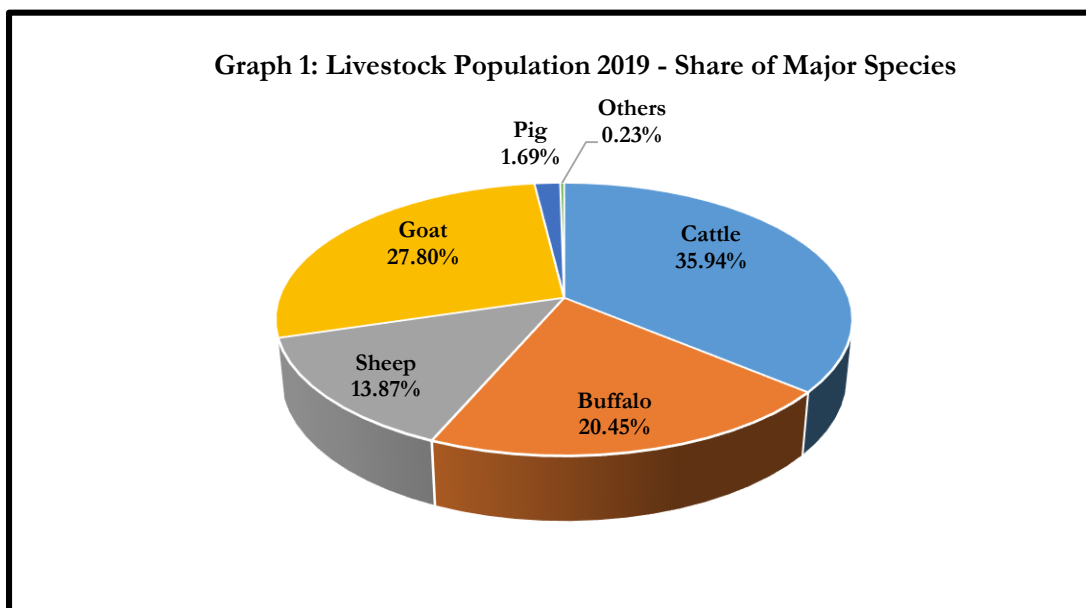

❖ The total Poultry in the country is **851.81 Million** in 2019, increased by **16.8%** over previous Census.

❖ The total Backyard Poultry in the country is **317.07 Million** in 2019, increased by **45.8%** over previous Census.

❖ The total Commercial Poultry in the country is **534.74 Million** in 2019, increased by **4.5%** over previous Census.

## Distribution of Livestock Population

- ❖ In 20<sup>th</sup> Livestock Census, 35.94%-Cattle, 27.80%-Goat, 20.45%-Buffaloes, 13.87%-Sheep, 1.69%-Pigs.
- ❖ Mithun, Yaks, Horses, Ponies, Mules, Donkeys and Camels taken together contribute 0.23% of the total livestock.
- ❖ As compare to previous census the percentage share of sheep and goat population has increased whereas the percentage share of cattle, buffalo and pig has marginally declined.
